3. Changes to Facility Use Guidelines

The details for each item are attached, each on a separate page.

ITEM 1: ADVISORY BOARD NOMINATIONS

On behalf of Tracy Madigan (Farmers Market Manager), the Vance County Regional Farmers Market Advisory Board, and myself, I am pleased to present the following nominations for the Vance County Regional Farmers Market Advisory Board.

1. Mr. Donald Faulkner, 490 Faulkner Town Rd., Henderson – Don is a vendor at the Vance County Regional Farmers Market and is farming on the land where he was raised and which has been in the family for decades. He has involved his children and grandchildren in the farming operation so that the tradition can continue. He sells vegetables that they raise on the farm, and is also our only vendor of locally raised pork. His input would be a valuable addition to the Board.
2. Mrs. Vivian Paynter, 1858 US Highway 401 S, Warrenton – Vivian is the mother of Wendy Short of Shorts Farm, which is one of the keystone vendors at the market. Vivian's daughter, son-in-law and grandchildren have been heavily involved in the farming operation and as vendors. Vivian is also a dedicated volunteer in the Vance/Warren Master Gardener volunteer program. Vivian will also provide representation of Warren County, part of the region served by the Market. Further, Vivian is a loyal customer of the Farmers Market and her participation on the Board would be invaluable.
3. Mr. Larry Davis, 1448 Warrenton Rd., Henderson – Larry lives in Vance County and has deep farming roots in Warren County. Currently he is working to revitalize the family farm and turn it into a productive enterprise once again. He raises vegetables for market, and also to provide to friends, family and those in need. He is passionate about agriculture, and routinely collaborates with Cooperative Extension to promote opportunities for small and aspiring farmers. He has recruited many friends, family members and neighbors into the farming operation and has plans to expand into livestock production. His voice on our board would be a welcome addition.

Presented by Paul McKenzie, Agriculture Extension Agent

ITEM 2: PROPOSED CHANGE TO THE VENDOR GUIDELINES

As charged by the Board of Commissioners, the Vance County Regional Farmers Market Advisory Board conducted a review of the Vendor Guidelines at their meeting on November 29th, 2019.

The Advisory Board recommends the following revision: Add Item j in section 16 (“Items approved for sale...”) which will read as follows:

Food sold directly to customers from a food truck that meets all state and county guidelines. The Market will allow up to one food truck each sale day. In the event that more than one food truck vendor joins the Market, the Market Manager will develop an equitable rotation schedule/protocol.

Background: The Farmers Market has already allowed food trucks to participate on a limited basis. We have found that food trucks are an additional draw for customers. The feedback from both customers and vendors has been highly positive. This change in the Guidelines will provide a framework and guidance for the Market Manager to incorporate food trucks into normal operations.

Presented by Paul McKenzie, Agriculture Extension Agent

ITEM 3: PROPOSED CHANGE TO FACILITY USE GUIDELINES

At their November 29th, 2018 meeting, the Vance County Regional Farmers Market voted to recommend the following changes to the Facility Use Guidelines:

- a. Under current guidelines outside groups may rent the facility for up to 4 hours at a cost of \$200, or up to 8 hours at a cost of \$400. The Advisory Board recommends maintaining a \$200 minimum for 4 hours, and then charging \$50 per hour for each additional hour (or portion thereof), up to a maximum of 8 hours.
- b. Under current guidelines, the use charge for groups that are not part of Vance County Government is the same, regardless of the nature of the group. We believe that offering a reduced rate to governmental organizations (e.g. City, State, Federal) will foster goodwill and provide valuable exposure. Thus, the Advisory Board recommends charging governmental groups that are not part of Vance County Government a flat fee of \$50. Departments of Vance County Government could continue to use the facility at no charge.

DEPARTMENT OF PLANNING & DEVELOPMENT

Vance County Planning Board Meeting Date 02-21-2019
Rescheduled from 02/14/19
Public Hearing – Case # RZ20190214-1, 8.196 acres, US HWY 1

Staff Project Contact: Angie Blount

EXPLANATION OF THE REQUEST

Planning Board recommendation to rezone one, 8.196 acre tract of land located between US Hwy 1 and Edwards Rd. The property is currently zoned R30 (Residential Low Density) and the proposed zoning is GC1 (General Commercial 1).

OWNER/APPLICANT

The owner of the property is Jean Harris, 211 Par Dr., Henderson, NC 27536, the applicant is Jonathon Edwards, 241 Pinnacle Place, Henderson, NC 27536.

PROPERTY INFORMATION

LOCATION: Between US 1 HWY and Edwards Rd, Pin # 0456 06008

EXISTING LAND USE: Residential, Zoned R30 (Residential Low Density)

SURROUNDING LAND USE: The surrounding tracts are residentially zoned, AR or R30. This property has road frontage on both Edwards Rd. and US 1 Hwy.

ZONING HISTORY: All parcels in this area are zoned as they were since countywide zoning was established in November 2011.

STAFF COMMENTS

This is a large parcel of land, combined with the more restrictive setbacks associated with a GC1 zoning, and access being made from US 1 HWY, plus buffering requirements would further protect surrounding residential areas. These things combined should lessen the impact a potential commercial business might have on residential neighbors.

PLANNING BOARD RECOMMENDATION

The planning board should consider the following factors in deciding this case:

- A. The proposal will place all property similarly situated in the area in the same category, or in appropriate complementary categories.
- B. There is convincing demonstration that all uses permitted under the proposed zone classification would be in the general public interest and not merely in the interest of an individual or small group.
- C. There is convincing demonstration that all uses permitted under the proposed zone classification would be appropriate in the area included in the proposed change. (When a new zone designation is assigned, any use permitted in the zone is allowable, so long as it meets zone requirements, and not merely uses which applicants state that they intend to make of the property involved.)
- D. There is convincing demonstration that the character of the neighborhood will not be materially or adversely affected by any use permitted in the proposed change.
- E. The proposed change is in accord with the County Land Use Plan and sound planning principles.

The planning board unanimously recommended the rezoning at their February 21, 2019 meeting.

BOARD OF COMMISSIONERS

Whenever the Board of Commissioners makes a decision to adopt or to reject a zoning amendment, the board must approve a written statement describing whether the action is consistent with an adopted comprehensive plan. The statement must also address why the board considers the action taken to be reasonable and in the public interest. The board is not required to follow its adopted plans in zoning decisions, but must consider its reasons for deciding to follow the plan or not.

Draft Motion and Rationale for Board of Commissioners Approval: Motion to approve the rezoning request on the basis that it is consistent with the county's land use plan by promoting economic development and growth while preserving the character and community values of the rural area.

Draft Motion and Rationale for Board of Commissioners Disapproval: Motion to deny the rezoning request on the basis that the uses allowed within the proposed zoning category can create negative visual impacts on the surrounding residential areas and the rezoning would not be in the general public interest.

3. What factors justify the proposed amendment?

I propose the request to rezone the property in question for the purpose of building a new facility for my current HVAC business. Ranes Heating & Air Conditioning has been a staple in the community since 1976 and hopes to continue this pattern if the property is available for our expansion. We have seen exponential growth over the last few years and will be needing a new facility very soon. This property is a viable candidate for relocation if rezoned. In moving to this property, we will be visible to more potential clients in the Vance County and surrounding markets. This move also increases tax revenue for the dormant property and even increases surrounding property values. As a HVAC business our level of work will still allow the neighboring property owners to enjoy a quiet atmosphere under all conditions. Our impact to the traffic will be minimal as the nature of our business is conducted at our customers residence.

To the best of my knowledge and belief, the lines and bearings shown on this map were obtained from a true and correct survey of the land shown hereon.

Vance County Planning Board Meeting Date 02-21-2019

Rescheduled from 02/14/19

Public Hearing – Case # RZ20190214- 2, 1 acre tract on Warrenton Rd

Staff Project Contact: Angie Blount

EXPLANATION OF THE REQUEST

To consider the rezoning of a 1 acre tract of land located on Warrenton Rd. The property is currently zoned RMHC (Residential Manufactured Home Community) and the proposed zoning is AR (Agricultural Residential).

OWNER/APPLICANT

The owner of the property is Vance County, 122 Young St., Henderson, NC 27536, the applicant is Vance County.

PROPERTY INFORMATION

LOCATION: Located on Warrenton Rd, known as Finch Land, identified by Pin# 0212 03001.

EXISTING LAND USE: Vacant, currently zoned RMHC (Residential Manufactured Home Community).

SURROUNDING LAND USE: The property is bordered on the left by a .33 acre tract of land, zoned LI or Light Industrial, currently being used as a convenience site. The property is bordered on the right by property zoned as RMHC (Residential Manufactured Home Community) and being used as such. The property across Warrenton Rd falls within the ETJ (Extra Territorial Jurisdiction) of the City of Henderson.

ZONING HISTORY: All parcels in this area are zoned as they were since countywide zoning was established in November 2011.

STAFF COMMENTS & PLANNING BOARD RECOMMENDATION

The rezoning of this parcel to AR would broaden its possibility of uses.

The planning board should consider the following factors in deciding this case:

- A. The proposal will place all property similarly situated in the area in the same category, or in appropriate complementary categories.
- B. There is convincing demonstration that all uses permitted under the proposed zone classification would be in the general public interest and not merely in the interest of an individual or small group.
- C. There is convincing demonstration that all uses permitted under the proposed zone classification would be appropriate in the area included in the proposed change. (When a new zone designation is assigned, any use permitted in the zone is allowable, so long as it meets zone requirements, and not merely uses which applicants state that they intend to make of the property involved.)
- D. There is convincing demonstration that the character of the neighborhood will not be materially or adversely affected by any use permitted in the proposed change.
- E. The proposed change is in accord with the County Land Use Plan and sound planning principles.

Planning Board Recommendation:

The planning board voted unanimously to recommend the rezoning of this parcel.

BOARD OF COMMISSIONERS

Whenever the Board of Commissioners makes a decision to adopt or to reject a zoning amendment, the board must approve a written statement describing whether the action is consistent with an adopted comprehensive plan. The statement must also address why the board considers the action taken to be reasonable and in the public interest. The board is not required to follow its adopted plans in zoning decisions, but must consider its reasons for deciding to follow the plan or not.

Draft Motion and Rationale for Board of Commissioners Approval: Motion to approve the rezoning request on the basis that the proposed AR zoning alone or combined with the possibility of a Conditional Use Permit would broaden the uses for the property and would more closely match the current uses of adjacent properties.

Draft Motion and Rationale for Board of Commissioners Disapproval: Motion to deny the rezoning request on the basis that the uses allowed within the proposed zoning category would not be consistent with the surrounding zoning and current uses.

Statement of Justification

1. Would the amendment correct an error in the zoning map? NO YES: *Please explain below:*

No. The proposed amendment will keep the zoning within the residential category, from RHMC to Agricultural Residential.

2. Have conditions changed in the area to justify the requested amendment? NO YES: *Please explain below:*

No. The RHMC zoning district currently include residences and related recreational, commercial, and service facilities, subject to the Vance County Manufactured Housing Park Ordinance. Whereas, Agricultural Residential is established primarily for rural, agricultural, and sparsely spaced residential development.

3. What factors justify the proposed amendment?

The proposed amendment is tied within the goals and objectives of the Vance County Land Use Plan, to conserve, protect, and encourage the wise and prudent use of Vance County's natural and cultural resources. Keeping the zoning within the residential category, will allow non-residential uses as a matter of right, or on a conditional basis. However, the standards of the AR district, are designed to preserve the rural character of Vance County by prohibiting uses incompatible with rural and low-density residential development.

AGENDA APPOINTMENT FORM

March 11, 2019

Public Hearing: Text Amendment to Zoning Ordinance

Request of Board: Approve Text Amendment

DEPARTMENT OF PLANNING & DEVELOPMENT

PLANNING STAFF REPORT
ZONING TEXT AMENDMENT
 STAFF PROJECT CONTACT: Angie Blount

EXPLANATION OF THE REQUEST

This is a request to amend the zoning ordinance to add "Convenience Center" to the Permitted Uses Table and the definitions.

INITIATION OF AMENDMENT

The County of Vance has requested that "Convenience Center" be added to the Permitted Uses Table and to the zoning ordinance definitions. Staff and the Planning Board recommend that (Convenience Center) be allowed in AR,R30 and GC1 with Conditional Use Permit approvals by the Board of Adjustment, allowed by right in the LI, IM and WOZ, and prohibited in the R20, R10, RMHC, HC, EIA and OI zoning jurisdictions.

BACKGROUND INFORMATION

The current ordinance and Permitted Uses Table does not contain a definition for Convenience Center. The closest definition falls under Recycling and/or storage under Industrial Uses but does not adequately describe the functions of a Convenience Center as items are not stored and any recyclables leave the site daily. The proposed definitions are:

Convenience Center: A county owned, operated and maintained or privately owned, but county operated and maintained site for the collection of residential waste and recycling.

The Permitted Uses chart would be updated as follows:

Vance County Water Board Report March 11, 2019

Water Board Planning Committee

Phase 3 Construction Update. The committee (Wilder [C], Brummitt, & Taylor) met with Tim Carpenter (LKC Engineering) on Monday, February 25, 2019 to discuss the construction update of Phase 3 of the Vance County Water District. The committee was informed the county has taken eight new signups in this area since December 2018 with a total of 86 potential customers to date. The engineer informed the committee that construction is progressing well and is on schedule with crews currently working along NC Hwy 39 South. The engineer anticipates the first change order from the contractor soon as a result of reducing the pipe and bore size along Rock Mill Road. He estimated the change order may provide a credit of approximately \$19,000 with no negative impact to cost or the timeline. *For your information.*

Phase 1B Engineering Services Agreement. The committee was informed that the signup campaign continues for Phase 1B with a total of eight new signups since December and an approximate total of 217 signups to date along the proposed water lines. As a result of the Water District taking on this project from Kittrell Water Association, it is necessary for a new Engineering Services Agreement to be completed with LKC Engineering. The committee reviewed the fees associated with the engineering services which include design, permitting, bidding and award, and construction administration for Phase 1B as funded and approved by USDA – Rural Development. The total project engineering fees are \$355,000 which includes \$146,000 for basic engineering services, up to \$181,000 for project inspection, and \$28,000 in additional engineering services. These fees would be paid initially from fund balance and then reimbursed later from USDA funds once increased project funds are awarded. Staff questioned the maximum amount that would be paid out prior to proceeding with the project, if the county were to hold off on construction due to a lack of signups. The engineer responded that 70% of the \$146,000 (or \$102,200) would be paid out initially for preliminary and final design prior to moving forward with the bidding phase of the project. The committee was agreeable to the fees and recommended authorizing the manager and attorney to finalize the Engineering Services Agreement. *Recommendation: Approve the engineering fees associated with Phase 1B and authorize the County Manager and County Attorney to finalize the Engineering Services Agreement with LKC Engineering.*

Phase 1B Waterline Easements. The committee was informed three of the five required easements have been obtained for Phase 1B. The fourth easement has been agreed upon by the property owner, but not finalized with the fifth easement requiring significant legal work due to the number of heirs owning the property. The committee suggested having the engineer look for a different location for crossing the waterline from Raleigh Road to Bobbitt Road which would change the property owners for the fourth and fifth easement. The committee was agreeable to authorizing the manager to negotiate and finalize the final easements once engineering and legal work is complete on the easements. *Recommendation: Authorize the County Manager to negotiate and finalize waterline easements for Phase 1B.*

Re: Vance County Water District
Phase 1B – Water System Project (previously Kittrell Water Association)
Engineering Services Agreement

Dear Mr. McMillen,

This letter is to provide you with a description of the Engineering Services Agreement (ESA) for the above referenced project. The subject ESA covers the engineering services necessary to proceed with the design, permitting, bidding and award, and construction of the Phase 1B water system project funded by USDA – Rural Development.

Attached with this letter is a summary of engineering fees for the Phase 1B project which are included within the ESA. The summary provides a breakdown of fees including; original basic services approved by USDA (shown in 8/7/14 KWA Letter of Conditions), amount previously paid by KWA, services to revise and incorporate changes / additions for VCWD, and the revised total basic services amount. Also shown is an updated budget amount to provide resident project representatives services (construction inspection) for the Phase 1B project. All inspection time will be billed hourly for the duration of the construction.

Additional Services shown on the breakdown and included in the ESA are for the preparation of the easement surveying and mapping and geotechnical evaluation at the bore location to determine subsurface conditions and presence of rock.

If you have any questions or concerns, please do not hesitate to contact us at (910) 420-1437.

Sincerely,
LKC Engineering, PLLC

Human Resources Committee

Employee Engagement Committee / Birthday Leave. The committee (Faines [C], Taylor, & Wilder) met with HR Staff on Tuesday, February 12, 2019. The committee was informed that management staff has established an employee driven Employee Engagement Team which has the purpose of generating and recommending for implementation, ideas that show appreciation and boost morale for all county employees. The team's lead and spokesperson, Frankie Nobles, reviewed their progress to date and informed the committee that the team had gathered ideas from county staff for improving morale and showing appreciation and narrowed it down to one idea to be considered for implementation during the upcoming fiscal year. The idea for consideration includes providing one day of birthday leave with pay to employees. The committee reviewed draft policy language for implementation of birthday leave and staff discussed similar programs from other counties, towns and government agencies around the state. The committee discussed how our benefits compare to the private industry and raised concerns to ensure productivity was not lost and perception of the added benefit was not negative. The committee was informed that the additional leave would be "use it or lose it" with little to no direct impact on the budget. Overall, the committee felt the team was a great idea and could be used as "a living suggestion box" for the county. The committee felt additional input from the board would be helpful prior to considering the birthday leave policy for implementation. *For your information and Input.*

Salary Progression Plan. Staff reviewed a proposed salary progression plan for incorporation into the FY19-20 budget as previously discussed during the planning retreat. The plan is an extension of the salary study and follows recommendations from the study in order to continue moving employees along the pay scale. The plan would allow a pay increase every other year and is based on years of service and meeting performance measures. The salary adjustments would be as follows on an every other year basis:

- 2 - 7 years of service – up to a 2% increase;
- 8 years of service and greater – up to a 1.5% increase;

The plan includes phasing out the existing longevity pay system for new hires beginning July 1, 2019. The county cost for implementation in FY19-20 after reimbursements is approximately \$242,000 and staff intends to look at including this in the recommended budget. Staff informed the committee that all of the surrounding counties have variations of a salary progression plan in place. The committee was in favor of proceeding with the plan and noted that it is a fair way in which employees will know where their salary will be in future years. *For your Information.*

Public Safety Committee

Volunteer Fire Department Contracts. The committee (Wilder [C], Brummitt, & Faines) met with staff on February 25, 2019 to review and discuss draft changes to the volunteer fire department contracts. The existing three year contracts are up for renewal by June 30th. Staff suggested language additions to the contracts specific to part-time positions as previously approved by the board and suggested adding performance measures for departments as a result of the increase in funding given this year and added positions next year. The committee considered comments provided by the fire chiefs through the fire association and changed several sections of

the draft contract during their thorough review. Staff intends to schedule a meeting with the volunteer chiefs to review the final contract draft after providing this opportunity for input from the board. As this review of the contracts was taking place, committee members suggested that the county also add part-time positions to the rescue squad from the general fund for the upcoming budget. *For your information.*

Addressing Ordinance. Due to time constraints the committee agreed to further review the addressing ordinance at their next meeting. *For your information.*

Prepayment:	Borrower may prepay in full all principal and interest obligations hereunder on a day when a Payment is due by paying to Regions an amount equal to the current outstanding principal balance plus any accrued but unpaid interest ("Outstanding Loan Balance") of all Equipment as of such date, plus a premium equal to the following (the "Prepayment Premium"): (1) if during the first year of the Base Term, five percent (5%) of the Outstanding Loan Balance, (2) if during the second year of the Base Term, four percent (4%) of the Outstanding Loan Balance and (3) if during the third year of the Base Term, three percent (3%) of the Outstanding Loan Balance (4) if during the fourth year of the Base Term, two percent (2%) of the

Outstanding Loan Balance (5) if during the fifth year of the Base Term, one percent (1%) of the Outstanding Loan Balance and (6) zero percent (0%) thereafter.

Payment Method: Borrower agrees that all rent, and other payments, will be made by automatic funds withdrawal (ACH), and Borrower will execute documentation satisfactory to Lender to facilitate such payments.

Rate Adjustment: The Tax-Exempt Rate presented in this proposal is based on current market conditions and Regions Cost of Funds on February 22, 2019. After April 8, 2019, the Tax-Exempt Rate as quoted in this proposal can be adjusted upward or downward to maintain Lender's economic yield as exists at this date.

Commencement: The Base Term shall commence on the date of closing. All payments of principal and interest shall be due semi-annually thereafter. All payments shall be subject to any state and local sales/use taxes, if applicable.

Funding Reimbursement: Funding will be into an escrow account controlled by Regions Bank. With submittal of acceptable Invoices and Proof of Payment (cancelled checks, ACH records, etc.) Lender agrees to reimburse Borrower for payments made prior to close of this Loan.

Bank Qualified: It is anticipated that this transaction will be bank qualified. The interest rate stated above assumes that the Financing will be a bank qualified tax-exempt obligation. Section 265(b)3 of the Internal Revenue Code of 1986 exempts certain tax-exempt obligations (bank qualified), not more than \$10,000,000.00 per year, from the 100% preference tax disallowance applicable to banks, provided that the reasonably anticipated amount of qualified tax-exempt obligations to be issued by the issuing authority during the calendar year does not exceed \$10,000,000.00.

Opinion of Counsel: As an additional condition precedent to the Lender making the Loan, the Borrower shall provide, among other things, the following opinions to the Lender: an opinion of bond counsel in form and substance satisfactory to the Lender and its counsel in all respects, which shall include opinions to the effect that (a) the Borrower has the authority under the laws of the State of North Carolina to issue the Debt Instrument and execute and deliver the Loan Documents, (b) that the Debt Instrument has been duly issued and each of the Debt Instruments and the other Loan Documents to which the Borrower is a party has been duly authorized, executed and delivered by the Borrower, (c) that each of the Debt Instruments and the other Loan Documents to which the Borrower is a party is a valid and binding obligation of the Borrower, duly enforceable in accordance with its terms, (d) that interest on the Debt Instrument is (i) excludable from gross income of the holders thereof for federal income tax purposes and (ii) is exempt from present income taxation in the State of North Carolina.

Documentation:	Lender will provide documentation required to close the Contract and will prepare and file the subsequent 8038G for the IRS. Any additional modifications requested by Borrower must be approved by Lender. Any associated legal fees will be reimbursed to Lender by Borrower.
Transactional Costs:	A documentation fee of \$3,500.00 will be required. Borrower will be responsible for all legal fees, if necessary. Borrower will be responsible for all costs it incurs.
Insurance:	Borrower will purchase and maintain liability insurance coverage equal to \$1,000,000.00 naming Lender as Additional Insured and physical damage insurance coverage with a deductible of no more than \$5,000.00 naming Lender as Loss Payee. Borrower will furnish satisfactory evidence of such insurance prior to funding.
Contingencies:	This proposal is not and should not be construed as a commitment to fund. The terms and provisions presented herein are subject to among other things (1) Lender's credit review and approval of Lender's investment in the Equipment and the economics of the proposed transaction, at Lender's sole discretion, and (2) execution of all documentation in form and substance satisfactory to all parties to the transaction. Lender makes no representation as to the legal, tax or accounting treatment of the Loan. Lender shall not have any obligation whatsoever under this proposal and shall only be obligated under and as provided in the documentation referred to in clause (2) above. No notice of approval or other communication from Lender or anyone claiming to act on its behalf shall waive or modify the limitations contained in this paragraph. Lender acknowledges and agrees to the contract specifications set forth in Part B of the County of Vance Request for Proposal.
Role of Lender:	The Lender and its representatives are not registered municipal advisors and do not provide advice to municipal entities or obligated persons with respect to municipal financial products or the issuance of municipal securities (including regarding the structure, timing, terms and similar matters concerning municipal financial products or municipal securities issuances) or engage in the solicitation of municipal entities or obligated persons for the provision by non-affiliated persons of municipal advisory services and/or investment advisory services. With respect to this Proposal and any other information, materials or communications provided by the Lender: (a) the Lender and its representatives are not recommending an action to any municipal entity or obligated person; (b) the Lender and its representatives are not acting as an advisor to any municipal entity or obligated person and do not owe a fiduciary duty pursuant to Section 15B of the Securities Exchange Act of 1934 to any municipal entity or obligated person with respect to this Proposal , information, materials or communications; (c) the Lender and its representatives are acting for their own interests; and (d) the Issuer and the Borrower have been informed that the Issuer and the Borrower should discuss this Proposal and any such other information, materials or communications with any and all internal and external advisors and experts that the Issuer and the Borrower, respectively, deem appropriate before acting on this Proposal or any such other information, materials or communications.

Borrower hereby authorizes Lender to pre-file UCC financing statements naming Borrower, as debtor, and Lender, as secured party, and describing the collateral therein by specific reference to the Equipment or by general reference to all equipment financed by Lender (or words similar to the effect), provided that our doing so shall not obligate Borrower or Lender to enter into the proposed financing, and provided further that if the proposed financing is not extended for any reason Lender will terminate any such UCC financing statements Lender has filed at Borrower's request.

Federal law requires all financial institutions to obtain, verify, and record information regarding customers. Lender has or will obtain and keep on file information complying with 31 CFR Part 103.121 regarding Borrower, including Borrower's name, address and copies of various identifying documents.

By acceptance of this proposal, Borrower requests Lender to take all actions necessary to evaluate the transactions contemplated hereby, including ordering credit reports and (if desired by Lender) appraisals of the Equipment. This proposal shall expire as of the close of business on March 8, 2019 unless extended in writing by Lender. This proposal may not be modified, supplemented or otherwise changed except in a writing signed by an officer of Lender, subject to the further limitations expressed above.

*County Manager's

Vance County
County Manager's Report to the Board
March 11, 2019

- A. Spring Litter Sweep Proclamation/County Employee Cleanup Event.** In the spring and fall of each year, the NC Department of Transportation (NC DOT) sponsors cleanup campaigns to beautify the roadsides of the state. This year, DOT is sponsoring their Spring Litter Sweep Campaign between April 13 - 27, 2019. Vance County encourages individuals and organizations to support this effort. On Friday, April 26, 2019 a volunteer crew of county employees from across our departments will be participating in a roadside litter pickup. *Recommendation: Approve the proclamation designating April 13 – 27, 2019, as Spring Litter Sweep in Vance County.*
- B. Resolution – Designation of Agent for Tropical Storm Michael Declaration.** Vance County was officially given a federal disaster declaration pertaining to Tropical Storm Michael on January 31, 2019. The county met the thresholds qualifying public agencies (i.e. Vance County, City of Henderson, NCDOT, Vance County schools, etc.) for public assistance allowing reimbursement for related expenses. The county did not meet the threshold for the individual assistance program that would provide funding directly to individuals and households. Enclosed is a designation of a primary and secondary applicant agent required by the North Carolina Division of Emergency Management. This designation will authorize Brian Short and David Beck as agents and Jordan McMillen as the certifying official to act on the county's behalf related to matters pertaining to disaster assistance for Tropical Storm Michael. *Recommendation: Approve the resolution designating the county's agents pertaining to disaster assistance for Tropical Storm Michael.*
- C. Local Records Retention Schedule.** The NC Department of Natural and Cultural Resources has provided an updated 2019 Local Government Agencies General Records Retention and Disposition Schedule per state law. By approving the updated schedule the county is authorized by the state to destroy or otherwise dispose of items in accordance with the schedules without further reference to or approval from the state as per G.S. 121-5(b) and 132-3. *Recommendation: Approve the March 1, 2019 general records retention and disposition schedule.*
- D. Semi-Annual Jail Inspection Report.** The State conducted its periodic jail inspection on January 8, 2019 and submitted its report to the county. Jail staff has completed the plan of correction which is noted on the enclosed forms. *Recommendation: Act to receive the report as information.*
- E. Planning Board Ordinance Amendment.** An application has been submitted from Ruxton Bobbitt to serve on the county's planning board as an alternate member. He is currently on the county's board of adjustment as an alternate member and has recognized the challenge the planning board recently had achieving a quorum. The planning board is established by Ordinance #27 and does not currently authorize alternate members. Staff has provided a suggested amendment (enclosed) allowing for two alternate members in similar fashion as the board of adjustments and recommends the commissioners set a public hearing at the April 1st meeting and consider amending the ordinance. *Recommendation: Set a public hearing for April 1st prior to amending Ordinance #27 to allow two alternate positions on the Vance County Planning Board.*

F. Generator at Animal Shelter. The board discussed the need for installing a generator at the animal shelter during the planning retreat. A generator is essential to provide the necessary power, lights, heat, air conditioning, and water pressure for the animals while also assisting the shelter in its role as a secondary backup site for county data. The peak load at the shelter has been calculated and an 80 KW Generac industrial natural gas generator is necessary. Staff has received quotes from National Power (\$56,365) as well as Rick Edwards Electric (\$56,850) and recommends proceeding with the lowest responsible, responsive bidder in National Power. Staff recommends utilizing \$30,000 from the animal shelter donation fund with the remaining to come from contingency funds. *Recommendation: Approve the purchase of a generator for the animal shelter from National Power in an amount not to exceed \$56,365 with \$30,000 coming from the animal shelter donation fund and the balance from contingency funds.*

The records retention and disposition schedule and retention periods governing the records series listed herein are hereby approved. In accordance with the provisions of Chapters 121 and 132 of the *General Statutes of North Carolina*, it is agreed that the records do not and will not have further use or value for official business, research, or reference purposes after the respective retention periods specified herein and are authorized to be destroyed or otherwise disposed of by the agency or official having custody of them without further reference to or approval of either party to this agreement. The local government agency agrees to comply with 07 NCAC 04M .0510 when deciding on a method of destruction. Confidential records will be destroyed in such a manner that the records cannot be practicably read or reconstructed. However, records subject to audit or those legally required for ongoing official proceedings must be retained until released from such audits or official proceedings, notwithstanding the instructions of this schedule. **Public records, including electronic records, not listed in this schedule are not authorized to be destroyed.**

All local government agencies and the Department of Natural and Cultural Resources agree that certain records series possess only brief administrative, fiscal, legal, research, and reference value. These records series have been designated by retention periods that allow these records to be destroyed when "reference value ends." All local government agencies hereby agree that they will establish and enforce internal policies setting minimum retention periods for the records that Natural and Cultural Resources has scheduled with the disposition instruction "destroy when reference value ends." If a local government agency does not establish internal policies and retention periods, the local government agency is not complying with the provisions of this retention schedule and is not authorized by the Department of Natural and Cultural Resources to destroy the records with the disposition instruction "destroy when reference value ends."

All local government agencies and the Department of Natural and Cultural Resources concur that the long-term and/or permanent preservation of electronic records requires additional commitment and active management by the agency. Agencies agree to comply with all policies, standards, and best practices published by the Department of Natural and Cultural Resources regarding the creation and management of electronic records.

It is further agreed that these records may not be destroyed prior to the time periods stated; however, for sufficient reason they may be retained for longer periods. This schedule supersedes the general standards in all previous local government retention and disposition schedules and is to remain in effect from the date of approval until it is reviewed and updated.

EXECUTIVE SUMMARY

- ✓ According to G.S. § 121-5(b) and G.S. § 132-3, you may destroy public records only with the consent of the Department of Natural and Cultural Resources (DNCR). The State Archives of North Carolina is the division of DNCR charged with administering a records management program. This schedule is the primary way the State Archives of North Carolina gives its consent. Without approving this schedule, your agency is obligated to obtain the State Archives of North Carolina's permission to destroy *any* record, no matter how insignificant.
- ✓ Each records series listed on this schedule has specific disposition instructions that will indicate how long the series must be kept in your office. In some cases, the disposition instructions are simply "retain in office permanently," which means that those records must be kept in your office forever. In other cases, the retention period may be "destroy in office when reference value ends." An agency may have reference copies of materials, meaning "a copy of a record distributed to make recipients aware of the content but not directing the recipient to take any action on the matter" (from Richard Pearce-Moses, *A Glossary of Archival and Records Terminology*). Your agency must establish and enforce internal policies by setting minimum retention periods for the records that the State Archives of North Carolina has scheduled with the disposition instructions, "destroy when reference value ends."
- ✓ E-mail is a record as defined by G.S. § 121-5 and G.S. § 132. It is the content of the e-mail that is critical when determining the retention period of a particular e-mail, including attachments, not the media in which the record was created. It is important for all agency employees and officials to determine the appropriate records series for specific e-mails and retain them according to the disposition instructions.
- ✓ The State Archives of North Carolina recommends that all agency employees and officials view the tutorials that are available online through the State Archives website in order to familiarize themselves with records management principles and practices. The State Archives of North Carolina's online tutorials include topics such as records management and scanning guidelines.
- ✓ The State Archives of North Carolina provides microfilming services for the minutes of major decision-making boards and commissions. Once those records are filmed, we will store the silver halide negative (original) in our security vault. There is a nominal fee for filming and duplicating film. Contact the Records Management Analyst in charge of microfilm coordination for the most current information.

MANAGING PUBLIC RECORDS IN NORTH CAROLINA

Q. What is this “records retention and disposition schedule”?

- A.** This document is a tool for the employees of local government agencies across North Carolina to use when managing the records in their offices. It lists records commonly found in agency offices and gives an assessment of their value by indicating how long those records should be retained. This schedule is also an agreement between your agency and the State Archives of North Carolina.

This schedule serves as the inventory and schedule that the State Archives of North Carolina is directed by G.S. § 121-5(c) and G.S. § 132-8 to provide. It supersedes all previous editions, including all amendments.

Q. How do I get this schedule approved?

- A.** This schedule must be approved by your governing body for use in your agency. That approval should be made in a regular meeting and recorded as an action in the minutes. It may be done as part of the consent agenda, by resolution, or other action.
-

Q. Am I required to have all the records listed on this schedule?

- A.** No, this is not a list of records you must have in your office.
-

Q. What is “reference value”?

- A.** Items containing “reference value” in the disposition instructions are generally records that hold limited value, which is typically restricted to those documenting routine operations within the office. A minimum retention period should be established by the office for any items containing the phrase “destroy in office when reference value ends” in the disposition instructions.
-

Q. Do the standards correspond to the organizational structure of my agency?

- A.** Records series are grouped into standards to make it easier for users to locate records and their disposition instructions. You may find that the groupings reflect the organizational structure of your agency, or you may find that records are located in various standards depending on the content of the record. The intent of the schedule’s organization is to provide an easy reference guide for the records created in your agency.
-

Q. What if I cannot find some of my records on this schedule?

- A.** Sometimes the records are listed in a different standard than how you organize them in your office. Be sure to check the Index and utilize the search function on the PDF version of the schedule to facilitate the location of records series. If you still cannot locate your records on the schedule, contact a Records Management Analyst. We will work with you to amend this records schedule so that you may destroy records appropriately.
-

Q. What are public records?

- A.** The *General Statutes of North Carolina*, Chapter 132, provides this definition of public records:

“Public record” or “public records” shall mean all documents, papers, letters, maps, books, photographs, films, sound recordings, magnetic or other tapes, electronic data-processing records, artifacts, or other documentary material, regardless of physical form or characteristics, made or received pursuant to law or ordinance in connection with the transaction of public business by any agency of North Carolina government or its subdivisions. Agency of North Carolina government or its subdivisions shall mean and include every public office, public officer or official (State or local, elected or appointed), institution, board, commission, bureau, council, department, authority or other unit of government of the State or of any county, unit, special district or other political subdivision of government.

Q. Is any person allowed to see my records?

A. Yes, except as restricted by specific provisions in state or federal law. G.S. § 132-6 instructs:

“Every custodian of public records shall permit any record in the custodian’s custody to be inspected and examined at reasonable times and under reasonable supervision by any person, and shall, as promptly as possible, furnish copies thereof upon payment of any fees as may be prescribed by law. ... No person requesting to inspect and examine public records, or to obtain copies thereof, shall be required to disclose the purpose or motive for the request.”

Q. What about my confidential records?

A. Not all government records are open to public inspection. Exceptions to the access requirements in G.S. § 132-6 and the definition of public records in G.S. § 132-1 are found throughout the General Statutes. You must be able to cite a specific provision in the General Statutes or federal law when you restrict or deny access to a particular record.

Q. Am I required to make available to the public copies of drafts that have not been approved?

A. Yes, even if a report, permit, or other record has not been finalized, it is still a public record subject to request. Any record that is not confidential by law must be provided when a request is received, whether it is “finished” or not.

Q. What do I do with permanent records?

A. Permanent records should be maintained in the office that created the records, forever.

The Department of Natural and Cultural Resources (DNCR) is charged by the General Assembly with the administration of a records management program (N.C.G.S. §121-4 (2) and §132-8.1) and the maintenance of “a program for the selection and preservation of public records considered **essential** to the operation of government and to the **protection of the rights and interests of persons**” (§132-8.2). Permanent records with these characteristics require preservation duplicates that are human-readable (paper or microfilm). Some examples of these characteristics include:

- Affect multiple people, without regard to relation
- Have significance over a long span of time
- Document governance
- Document citizenship

Examples of records with these characteristics:

- Minutes of governing bodies at the state and local levels are the basic evidence of our system of governance, and are routinely provided for the public to read.
 - Records, such as deeds and tax scrolls, about land document changes in ownership and condition. Counties maintain offices expressly for the purpose of making those records available to the public. Other records in local and state governments document potential public health hazards, such as hazardous materials spills.
 - Adoptions, marriages, and divorces document changes in familial relationships and document citizenship. Though adoptions are confidential (not available for public inspection), they document citizenship and changes in inheritance and familial succession.
 - Court records, such as wills, estates, and capital cases, affect people within and across family groups, are made available for public inspection, and often involve transactions related to the examples above.
- See the Human-Readable Preservation Duplicates policy issued by the North Carolina Department of Natural and Cultural Resources (<https://archives.ncdcr.gov/documents/human-readable-preservation-duplicates>) and check with a records analyst to determine whether your permanent records require a preservation duplicate.

Q. *What is historical value?*

- A.** Historical records document significant events, actions, decisions, conditions, relationships, and similar developments. These records have administrative, legal, fiscal, or evidential importance for the government or its citizens. Call a Records Management Analyst for further assistance in assessing historical value.

Q. *What if I do not have any records?*

- A.** Nearly every position in government generates, receives, or uses records. Computer files of any kind, including drafts and e-mail, are public records. Even if your records are not the official or final version, your records are public records. Not all records have high historical, legal, or fiscal value, but they all must be destroyed in accordance with the provisions of the appropriate records schedule.

Q. *May I store our unused records in the basement, attic, shed, etc.?*

- A.** Public records are public property. Though we encourage agencies to find places to store records that do not take up too much valuable office space, the selected space should be dry, secure, and free from pests and mold. Your office must ensure that records stored away from your main office area are well protected from natural and man-made problems while remaining readily available to your staff and the public.

Q. *Our old records are stored in the attic, basement, or off-site building, etc. Are we required to provide public access to these records?*

- A.** Yes, as long as the records are not confidential by law. You should also be aware that confidentiality can expire.

Q. *Aren't all our old records at the State Archives of North Carolina?*

- A.** Probably not. The State Archives of North Carolina collects only very specific types of records from local government offices. Contact a Records Management Analyst for more information about which records are held or can be transferred to the State Archives of North Carolina for permanent preservation.

Q. *I found some really old records. What should I do with them?*

- A.** Call a Records Management Analyst. We will help you examine the records and assess their historical value.

Q. *Can I give my old records to the historical society or public library?*

- A.** Before you offer any record to a historical society, public library, or any other entity, you must contact a Records Management Analyst. Permanent records must be kept either in your offices or at the State Archives of North Carolina.

Q. *Whom can I call with questions?*

- A.** If you are located west of Statesville, call our Western Office in Asheville at (828) 296-7230 extension 224. If you are east of Statesville, all the way to the coast, call our Raleigh office at (919) 814-6900.

AUDITS, LITIGATION, AND OTHER OFFICIAL ACTION

Q. Why is there an asterisk in the disposition instructions of so many items on this schedule?

A. No record involved in a pending or ongoing audit, legal, or other official action may be destroyed before that audit or action is resolved.

A legal hold or litigation hold means that records that are the subject of the legal hold or litigation hold must be preserved and thus must not be destroyed until officially released from the hold. A legal hold or litigation hold is placed when either an official discovery order is served on the agency requesting the production of the records in question (for a litigation, regulatory investigation, audit, open records request, etc.) or litigation is pending and the agency is thus on notice to preserve all potentially relevant records. You must also ensure that for a claim or litigation that appears to be reasonably foreseeable or anticipated but not yet initiated, any records (in paper or electronic formats) relevant to such a claim or litigation are preserved and not destroyed until released by your General Counsel. The records in question must not be destroyed until the completion of the action and the resolution of all issues that arise from it regardless of the retention period set forth in this schedule.

We have used an asterisk (*) in the disposition instructions to mark records series that are commonly audited, litigated, or may be subject to other official actions. However, any record has this potential. Records custodians are responsible for being aware of potential actions, and for preventing the destruction of any record that is, or may be reasonably expected to become, involved in an audit, legal, or other official action.

Records used during routine audits may be destroyed when the governing body accepts the audit, if the records have completed the retention period listed in this schedule. If time remains in the retention period, the records must be maintained for the remainder of the period. The auditor's working papers must be kept according to the schedule. (See **AUDITS: PERFORMANCE**, page 2, item 8, and **AUDITS: FINANCIAL**, page 19, item 6.) Should a dispute arise over an audit, the records that were audited should be retained until that dispute is resolved.

The attorney representing the agency should inform records custodians when legal matters are concluded and records will no longer be needed. Following the conclusion of any legal action, the records may be destroyed if they have met the retention period in the schedule. Otherwise, they should be kept for the remaining time period.

TRANSITORY RECORDS

Transitory records are defined as “record[s] that [have] little or no documentary or evidential value and that need not be set aside for future use.”¹

According to North Carolina General Statutes § 121 and § 132, every document, paper, letter, map, book, photograph, film, sound recording, magnetic or other tape, electronic data processing record, artifact, or other documentary material, regardless of physical form or characteristics, made or received in connection with the transaction of public business by any state, county, municipal agency, or other political subdivision of government is considered a public record and may not be disposed of, erased, or destroyed without specific approval from the Department of Natural and Cultural Resources.

The Department of Natural and Cultural Resources recognizes that some records may have little or no long-term documentary or evidential value to the creating agency. These records are often called “transitory records.” The following questions and answers discuss types of transitory records commonly created in state government. They may be disposed of according to the guidance below. However, all public employees should be familiar with the General Schedule for State Agency Records, their office’s Program Records Retention and Disposition Schedule, and any other applicable guidelines for their office. If any of these documents require a different retention period for these records, follow the longer of the two retention periods. When in doubt about whether a record is transitory, or whether it has special significance or importance, retain the record in question and seek guidance from the analyst assigned to your agency.

Q. What do I do with routing slips, fax cover sheets, “while you were out” slips, memory aids, etc.?

- A.** Routing slips and transmittal sheets adding no information to that contained in the transmitted material have minimal value after the material has been successfully transmitted. These records may be destroyed or otherwise disposed of after receipt of the material has been confirmed.

Similarly, “while you were out” slips, memory aids, and other records requesting follow-up actions (including voicemails) have minimal value once the official action these records are supporting has been completed and documented. Unless they are listed on the General Schedule for State Agency Records or your office’s Program Records Retention and Disposition Schedule, these records may be destroyed or otherwise disposed of once the action has been resolved.

Q. What about research materials, drafts, and other working papers used to create a final, official record?

- A.** Drafts and working papers are materials, including notes and calculations, gathered or created to assist in the creation of another record. All drafts and working papers are public records subject to all provisions of General Statute § 132, but many of them have minimal value after the final version of the record has been approved, and may be destroyed after final approval, if they are no longer necessary to support the analysis or conclusions of the official record. Drafts and working documents which may be destroyed after final approval include:

- Drafts and working papers for internal and external policies
- Drafts and working papers for internal administrative reports, such as daily and monthly activity reports
- Drafts and working papers for internal, non-policy-level documents, such as informal workflows and manuals; and

¹ *A Glossary of Archival and Records Terminology*, Richard Pearce-Moses (2005)

- Drafts and working papers for presentations, workshops, and other explanations of agency policy that are already formally documented.

Q. What if I have forms designed and used solely to create, update, or modify records in an electronic medium?

- A.** If these records are not required for audit or legal purposes, they may be destroyed in office after completion of data entry and after all verification and quality control procedures. However, if the forms contain any analog components that are necessary to validate the information contained on them (e.g. a signature or notary's seal), they should be retained according to the disposition instructions for the records series encompassing the forms' function.

AGREEMENT. The sale of products and/or services by National Power Corp. ("NPC") to Buyer is expressly conditioned upon Buyer's agreement to each and every term contained herein, which shall control over any additional, inconsistent or contrary provision in Buyer's purchase order or other forms. Buyer acknowledges that the terms and conditions herein are the sole and complete agreement between the parties, which may only be modified and/or amended in a separate agreement signed both by NPC and Buyer.

INVOICES. Buyer will be invoiced on the date of shipment for all products and upon substantial completion for all services. Manufacturer service contracts resold by NPC to Buyer are contracts between the manufacturer and Buyer only and will be invoiced when processed by the manufacturer. Applicable taxes and freight charges will be billed as separate line items, unless otherwise specified in NPC's quote.

PAYMENT. Subject to credit approval and unless otherwise stated on NPC's quotation, Buyer shall make payment within thirty (30) days of the invoice date. NPC may charge a service charge of 1.5% per month, but not in excess of any lawful rate, if Buyer has not paid an invoice in full by the due date. NPC may at any time decline to make any shipment or delivery or perform any work except upon Buyer's payment of past invoices and/or prepayment of this order or upon such other terms and conditions as are acceptable to NPC's credit department. If NPC deems it necessary to cancel any outstanding order due to Buyer's financial condition, Buyer agrees to reimburse NPC for reasonable cancellation charges. NPC may apply any payments received to Buyer's oldest outstanding invoices regardless of any instructions to the contrary from Buyer. Payment to NPC shall not be contingent on third party payments to Buyer and no portion of the price shall be held as retainage. SECURITY INTEREST. Buyer hereby grants NPC a security interest in all goods sold until the full amount of the purchase price has been paid by Buyer. Buyer hereby authorizes NPC to file a financing statement signed only by NPC as Buyer's attorney-in-fact in all places where necessary and appropriate to perfect the security interest.

SHIPMENT. All products are sold, and all shipments are made, FOB shipping point. The shipment date stated in any quote is NPC's best approximation of the probable shipment date and is not a fixed or guaranteed shipment date. NPC shall not be responsible for any damage or loss resulting, whether directly or indirectly, from delayed shipments or its inability to ship as quoted. Unless otherwise noted in any quote, partial shipments may be made upon request and are subject to additional shipping and handling charges. Claims for freight damage will be waived unless made in writing to NPC within ten (10) days of receipt of such shipment.
