Committee Reports and Recommendations

August 3, 2020

Public Safety Committee

Fire District Redistricting. Over the past several months the committee discussed changes to fire district boundaries in five different areas around the county as agreed upon by neighboring fire chiefs. During the July 21st meeting, the committee (Wilder[C], Brummitt & Taylor) decided to hold off on making any redistricting recommendations until after Bearpond goes through its rating review later in 2020. *For Your Information.*

Fire Reorganization. In February 2019 the board voted to continue the Goldenbelt fire district in its current structure. During the retreat in January 2020, a commissioner brought up the fire reorganization plan and the board asked the committee to review the plan. At its June 30th and July 21st meetings, the committee reviewed and discussed organizational charts and an updated financial analysis associated with the reorganization plan. At its July 21st meeting, the committee reviewed the updated financial analysis as prepared by county finance staff. The analysis indicates the plan would create an initial savings of \$281,791 on the general fund while creating a \$206,136 deficit on the fire tax fund which would require a 1.2 cent fire tax increase. The finance director discussed concerns with transferring monies from the general fund to the fire fund to cover the deficit and mentioned state law within the budget and fiscal control act that prevents paying for a service fund deficit with general fund monies. Committee members mentioned management, HR, and potential legal concerns with the plan having county fire employees report to county policies while also being subject to non-county operational policies with the employees physically being located in a volunteer station and operating volunteer department equipment. The committee then reviewed input from the Fire Association (see enclosed email from Fire Association President) indicating that the fire association members had too many questions and concerns with the proposal to support its passage. As requested by the board, the committee has reviewed the plan and based upon input gathered and concerns raised, the committee recommended (2-1 vote) not proceeding with further conversations on the reorganization plan. *For Your Information.*

Fire Association Priorities. The committee discussed the following priorities which were brought up by the fire association:

1. Staffing of two dedicated fire staff to the Rescue Squad (Would require a change in the county's fire tax resolution allowing the rescue squad to receive fire tax funding and a change to the rescue squad contract)
2. Change in volunteer fire department contracts allowing flexible use of existing part-time hours

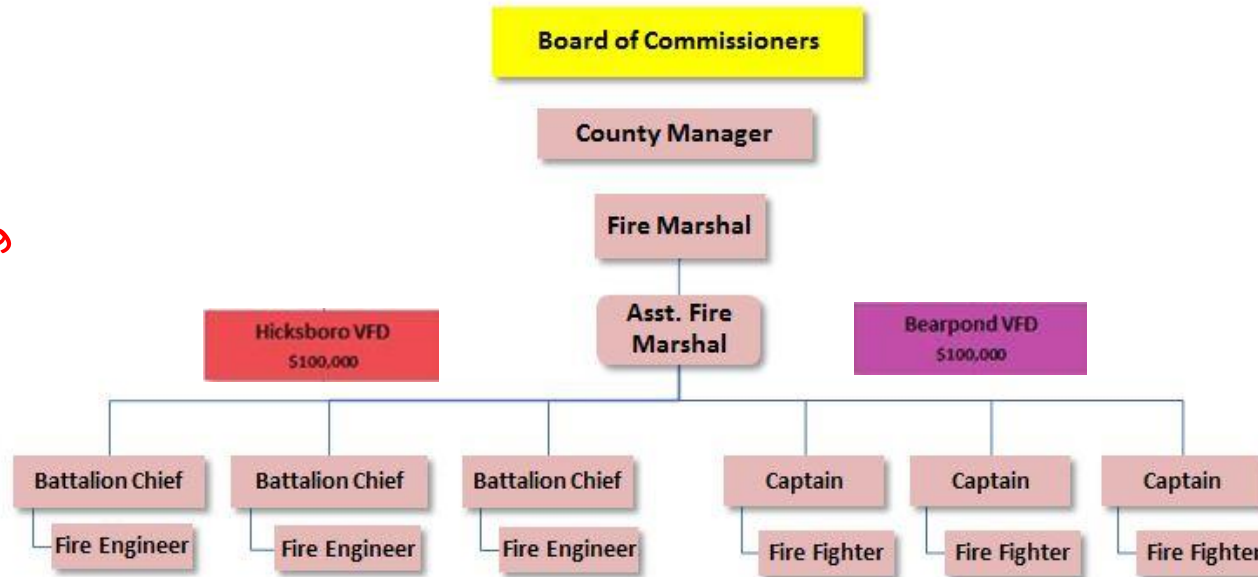

All committee members were in support of updating the fire contracts to allow flexibility in the use of part-time hours. The committee discussed the idea of providing funding to the rescue squad for two dedicated fire staff. A committee member presented concerns with the current amount of funding the county is providing for rescue services relative to what other counties provide for similar services and advocated for the county to bid out rescue services to receive a competitive proposal. Two committee members were in favor of exploring and discussing further the idea of providing additional funding to the rescue squad to allow them to provide the two part-time slots. The committee asked staff to research the legalities of adding the rescue squad to the fire tax fund and intends to review a financial analysis at its next meeting. *For Your Information.*

Properties Committee

Warrenton Road Convenience Site – Construction Bids. The committee (Brummitt[C], Taylor & Wilder) met on Wednesday, July 22, 2020 to review bids received for constructing the new Warrenton Road Convenience site and turn lane. H.G. Reynolds was the low bidder with a total base bid of \$351,821 plus an alternate bid of \$34,842 (\$386,663 total) versus a project budget of \$369,216. The committee was in favor of including the alternate which adds asphalt vs. using gravel around the solid waste compactor. It is anticipated that this could save between \$4,000 and \$5,000 per year in gravel being added to the site. The committee was agreeable to awarding the project to H.G. Reynolds as the low bidder, but before making this recommendation would like to see if value engineering can reduce the overall project cost inclusive of the alternate within the budget. The committee chairperson and county staff met with the project engineer and H.G. Reynolds following the committee meeting and were able to identify \$1,480 in savings (removing barbed wire on site fence). ***Recommendation Subject to Value Engineering Conversation: Award construction contract to H.G. Reynolds totaling \$385,183 for the Warrenton Road Convenience Site and Turn Lane Construction project.***

Subject: Public Safety Committee Meeting

Commissioners,

During the last Public Safety Committee meeting, the fire association was presented with a fire restructuring proposal, which was entitled the 'Dan Brummitt Proposal.' Overall, it appears the members of the association have too many questions and concerns with this proposal to support its passage in the upcoming Public Safety Committee meeting. However, there are several things that the association would like to see passed:

1. VC Rescue needs to be staffed with part time positions, with hours equal to that of the volunteer fire departments, immediately. The fire tax resolution may have to be changed to let VC Rescue be paid from the fire tax.
2. Change the verbiage in our contracts to let part time staff hours be flexible, not to exceed 120 hours per week.

We would also like it to be noted that it would be more accommodating for department representatives if these Public Safety Committee meeting times were moved to later in the day.

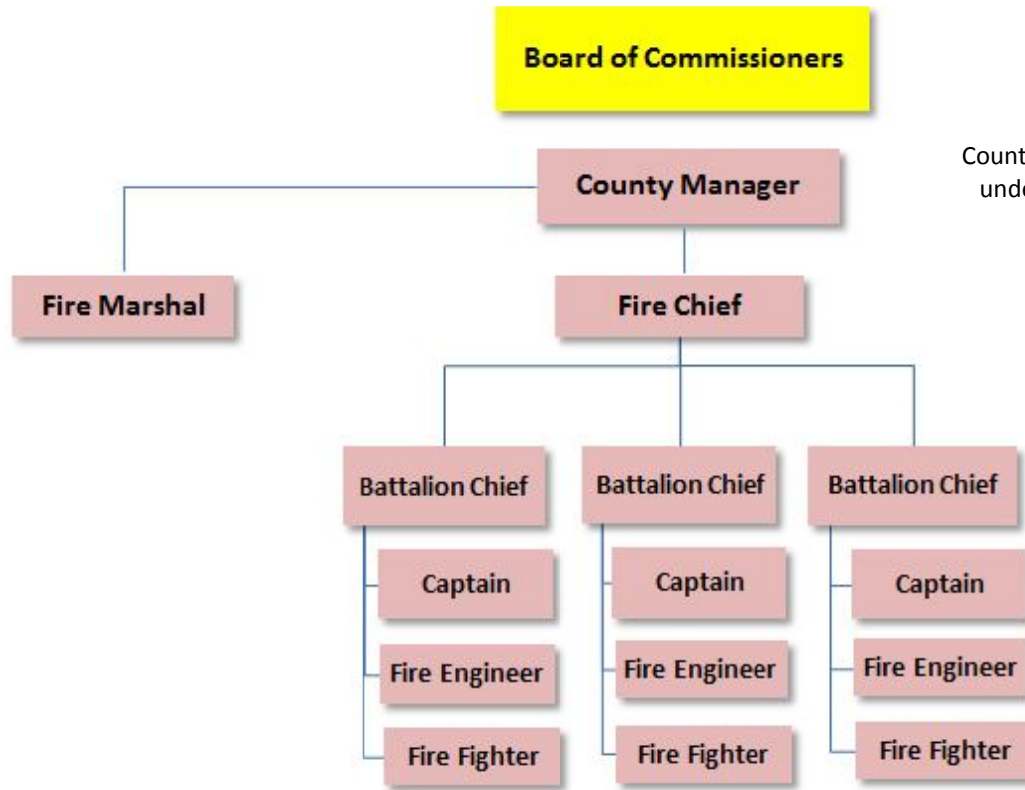

Thank you for your time and continued support,

Wayne Seaman

As per NFPA 1710 standards

Existing Scenario

County Fire Department remains in Goldenbelt District under the management of the county manager and control of the Board of Commissioners

PT positions were added to Volunteer Fire Departments in FY19-20. The departments now have the lowest ISO ratings that will benefit residential property owners and response times have been improved dramatically.

- A. Legislative Goals.** The NC Association of County Commissioners (NCACC) 2021-2022 biennium legislative goals process is underway. Commissioners are invited to submit ideas for legislative goals to Kelly Grissom or the county manager by August 28th for consideration by the board at the September meeting. The deadline to submit goals to NCACC is September 30, 2020. *For your information.*
- B. McGregor Hall Funding Request.** McGregor Hall recently provided a letter outlining its financial challenges this year as a result of the COVID-19 pandemic. From the day they closed down on March 16 – July 10th they have experienced a 75% reduction in contributions, a 91% reduction in sales, and a 100% reduction in rental income all resulting in a \$100,000 overall decrease in revenue from the same period in 2019. With the ongoing impact of COVID-19, it is anticipated that these impacts will grow into next year. They have requested \$250,000 in emergency funding between the City and County to sustain their operations. Staff recognizes the tremendous economic impact that McGregor has on the county and plans to have further discussions with the intergovernmental committee and the City of Henderson regarding the request. Staff is researching the possibility of using Coronavirus Relief Funds as a way of providing one-time funding to McGregor Hall. *For your information.*
- C. HVIP Phase III Project Update.** Work on the construction project has progressed quickly and will be wrapping up over the next month or two. To date installation of the 8 inch sewer force main, 6 inch sewer force main, gravity sewer, and water line has been installed and tested. The new roadway (Industrial Park Drive) is graded with eight inches of gravel and the realignment of Commerce Drive and Industrial Park Drive is complete. We anticipate NCDOT inspection of the realignment soon and await word on a federal Economic Development Administration grant application to see if funds will be available to pave the road and complete the original project scope. Attached is the latest progress report from the project engineer including photos of progress. *For your information.*
- D. Request from Secretary of Interior.** Several commissioners received an email this week from the US Department of Interior with a letter attachment from Secretary David Bernhardt. Kelly Grissom forwarded the email to all commissioners that were not on their original distribution. The letter outlines the President's Executive Order on Building and Rebuilding Monuments and provides background on a plan to create a National Garden for the purpose of relocating statues which feature the founding fathers, former presidents of the United States, those who fought for the abolition of slavery, and other great Americans (Executive Order includes list of 31 individuals). The Department of Interior is seeking recommendations from counties on the following:
1. Does the County have locations of natural beauty that would serve as a reputable location for the National Garden? Their preference is federal land.
 2. Does the County have any statues or monuments that we are willing to donate or loan to this effort?
 3. Are there any other American heroes who should be recognized in the National Garden beyond the 31 individuals listed in the President's Executive Order?
- If the board has any input to be provided to the Department of Interior, staff will provide a response. *For your information.*

Mr. Jordan McMillen, County Manager
122 Young Street, Suite B
Henderson, NC 27536

RECEIVED JUL 17 2020

Dear Mr. McMillen:

As is the case with many businesses and nonprofits in our community right now, McGregor Hall is reeling from the impact of the COVID-19 pandemic. I'd like to enumerate some of the challenges we've faced so far in this crisis, along with some that we know are coming.

In the 2020 period from March 16 (the day we closed for the safety of our patrons and employees) through today, July 10, we've seen:

- a 75% reduction in our Business and Corporate contributions against 2019, representing a loss of nearly \$60,000
- a 91% reduction in our sales income against 2019, representing a loss of nearly \$70,000 in ticket and concessions sales
- a 100% reduction in our venue rental income against 2019, representing a loss of nearly \$20,000 against 2019
- a \$100,000 decrease in our gross revenue against the same period in 2019. The only revenue we've been able to generate during that period has been from three online fundraisers and liquidation of a small property received in an estate gift
- Because we hold our personnel costs at only 9% of our total budget, we were only able to receive \$15,500 from the Payroll Protection Program

Additionally, we have several ominous factors that will continue this trend until we are able to resume large gatherings, hopefully following the availability of a proven COVID-19 vaccine in the first half of 2021:

- We've been forced to cancel our traditional slate of ticketed programming for the 2020-2021 season which normally begins in September. Last season this represented \$207,000 in ticket sales.
- We've been forced to cancel all booked rentals and not to accept any new ones until there is a safe way for large groups to gather. In the 2020-2021 season venue rentals represented over \$59,000 in revenue.
- Because of the previously listed cancellations, we will have no income from concessions and other miscellaneous sales, which represented over \$47,000 in the 2019 calendar year.
- Our USDA annual mortgage payment of \$124,620 is due annually whether we are generating revenue or not!

Our primary mission is an economic one. The arts just happens to be the way we accomplish it. We have previously shared with you the 2019 NC State Municipal Research Lab study, showing that McGregor Hall has, since its opening in 2016, been responsible for 5.5% of all economic growth in Vance County. This growth has happened with no financial support from either Vance County or the City of Henderson. The NC Presenters Consortium has also confirmed that we are the only performing arts center of our size in North Carolina operating with no municipal, county, or higher education support of any kind. Let's change that! Our creation of economic stimulus helps both governments and every community around us. No one knows the future, but when we are able to reopen we anticipate substantial new safety-related sanitation expenditures we have not had in the past. \$250,000 in emergency support from Vance County and the City of Henderson would help us emerge from this pandemic in a strong position, enabling McGregor Hall to continue to have the extensive economic impact on our region that we have already proven is possible. Thank you for your support and consideration.

Sincerely,

Mark L. Hopper, Chair, The Board of the Embassy Cultural Center Foundation

Progress Report #2
Henderson Vance Industrial Park Expansion
Vance County, NC

The project has been running smoothly and is almost fully wrapped up now with complete installation and inspection of the 8-inch force main, 6-inch force main, and gravity sewer. The water line has also been completely installed, pressure tested, and chlorinated. Industrial Park Drive is completely graded with the 8-inches of gravel in place. The realignment of Commerce Dr is complete, and the temporary road striping and signage is also complete (not pictured). NCDOT will be on site soon to inspect the realignment before that portion can open for traffic and accepted under the NCDOT. We are also reaching agreement with the NCDOT for taking over Industrial Park Drive once we receive funding and the road is paved. The road to the pump station is fully graded and graveled as well. All straw and seeding is complete around the roads and pump station with grass beginning to take root and grow.

The pump station is nearly complete, we are wiring the electrical components now and working with the City of Henderson to get the SCADA set up. Duke Energy will be on site this week to run the service line to the pump station and install a light pole and light fixture. The pump station start up is expected to be set for the second or third week of August.

ELJ Inc. has submitted four Pay Applications for a total of \$2,014,842.27. ELJ Inc. is close to submitting their final Pay Application which we will then figure out what is left of the original contract amount of \$2,143,856.98.

I have also included some progress photos for reference.

THE SECRETARY OF THE INTERIOR
WASHINGTON

JUL 23 2020

Board of Commissioners
Vance County
946 W Andrews Avenue, Suite T
Henderson, North Carolina 27536-2500

Dear County Commissioners:

On July 3, 2020, President Donald J. Trump signed an Executive Order (EO) on Building and Rebuilding Monuments to American Heroes. Recently, many statues and monuments that preserve the memory of our collective American story have been vandalized, destroyed, or removed. President Trump has made clear that this Administration will not stand for anarchy and allow our Nation's history to be erased. We must preserve the story of America's heroes.

The President has directed me to lead a Task Force that will propose options for the creation of a National Garden of American Heroes, including potential locations for the site. The National Garden will feature the statues of the greatest Americans to ever live and express our noblest ideals: respect for our ancestors, love of freedom, and striving for a more perfect Union. These works of beauty, created as enduring tributes, will show reverence for our past, dignify our present, and inspire those who come to visit this majestic place in the future.

As outlined in the enclosed EO, the "National Garden should be located on a site of natural beauty that enables visitors to enjoy nature, walk among the statues, and be inspired to learn about great figures of America's history." The site should be proximate to at least one major population center and not cause significant disruption to the local community. My preference is that the site be on lands already in Federal ownership.

The Task Force will also develop a process for accepting donations or loans of statues and monuments by States, localities, civic organizations, businesses, religious organizations, and individuals for display at the National Garden of American Heroes. Statues and monuments will include the Founding Fathers, former Presidents of the United States, those who fought for the abolition of slavery, and other great Americans.

I ask that you respond to this letter in your capacity as county officials, and provide any recommendations that answer the following questions:

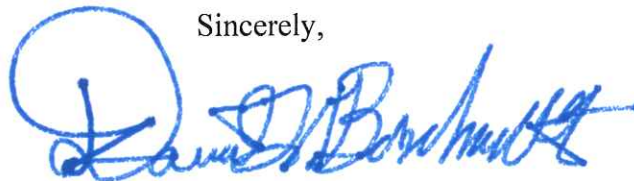

1. Are there locations of natural beauty within your unit of local government that would serve as a reputable location for these monuments, statues, and the National Garden of American Heroes? Please list and describe any such locations consistent with the EO.

2. Are there any statues or monuments your locality can donate or loan to this effort that will honor our nation's heroes? Please list and describe any such statues or monuments consistent with the EO.
3. In addition to the 31 individuals listed in the EO, are there any other American heroes who should be recognized in the National Garden of American Heroes? Please list and describe any such individuals consistent with the EO.

The Task Force intends to provide recommendations to the President expeditiously and would ask that you provide your response by July 31, 2020. Please send an electronic copy of your response to Mr. Jeffrey Small at jeffrey_small@ios.doi.gov.

America's heroes are embedded in our hearts and as a result of the President's leadership will forever be embedded in American history. This worthy and appropriate tribute to the legendary figures of the United States of America will transmit our national story to future generations.

Sincerely,

EXECUTIVE ORDERS

Executive Order on Building and Rebuilding Monuments to American Heroes

Issued on: July 3, 2020

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Purpose. America owes its present greatness to its past sacrifices. Because the past is always at risk of being forgotten, monuments will always be needed to honor those who came before. Since the time of our founding, Americans have raised monuments to our greatest citizens. In 1784, the legislature of Virginia commissioned the earliest statue of George Washington, a “monument of affection and gratitude” to a man who “unit[ed] to the endowment[s] of the Hero the virtues of the Patriot” and gave to the world “an Immortal Example of true Glory.” 1 Res. H. Del. (June 24, 1784). In our public parks and plazas, we have erected statues of great Americans who, through acts of wisdom and daring, built and preserved for us a republic of ordered liberty.

These statues are silent teachers in solid form of stone and metal. They preserve the memory of our American story and stir in us a spirit of responsibility for the chapters yet unwritten. These works of art call forth gratitude for the accomplishments and sacrifices of our exceptional fellow citizens who, despite their flaws, placed their virtues, their talents, and their lives in the service of our Nation. These monuments express our noblest ideals: respect for our ancestors, love of freedom, and striving for a more perfect union. They are works of beauty, created as enduring tributes. In preserving them, we show reverence for our past, we dignify our present, and we inspire those who are to come. To build a monument is to ratify our shared national project.

To destroy a monument is to desecrate our common inheritance. In recent weeks, in the midst of protests across America, many monuments have been vandalized or destroyed. Some local governments have responded by taking their monuments down. Among others, monuments to Christopher Columbus, George Washington, Thomas Jefferson, Benjamin Franklin, Francis Scott Key, Ulysses S. Grant, leaders of the abolitionist movement, the first all-volunteer African-American regiment of the Union Army in the Civil

War, and American soldiers killed in the First and Second World Wars have been vandalized, destroyed, or removed.

These statues are not ours alone, to be discarded at the whim of those inflamed by fashionable political passions; they belong to generations that have come before us and to generations yet unborn. My Administration will not abide an assault on our collective national memory. In the face of such acts of destruction, it is our responsibility as Americans to stand strong against this violence, and to peacefully transmit our great national story to future generations through newly commissioned monuments to American heroes.

Sec. 2. Task Force for Building and Rebuilding Monuments to American Heroes. (a) There is hereby established the Interagency Task Force for Building and Rebuilding Monuments to American Heroes (Task Force). The Task Force shall be chaired by the Secretary of the Interior (Secretary), and shall include the following additional members:

- (i) the Administrator of General Services (Administrator);
- (ii) the Chairperson of the National Endowment for the Arts (NEA);
- (iii) the Chairperson of the National Endowment for the Humanities (NEH);
- (iv) the Chairman of the Advisory Council on Historic Preservation (ACHP); and
- (v) any officers or employees of any executive department or agency (agency) designated by the President or the Secretary.

(b) The Department of the Interior shall provide funding and administrative support as may be necessary for the performance and functions of the Task Force. The Secretary shall designate an official of the Department of the Interior to serve as the Executive Director of the Task Force, responsible for coordinating its day-to-day activities.

(c) The Chairpersons of the NEA and NEH and the Chairman of the ACHP shall establish cross-department initiatives within the NEA, NEH, and ACHP, respectively, to advance the purposes of the Task Force and this order and to coordinate relevant agency operations with the Task Force.

Sec. 3. National Garden of American Heroes. (a) It shall be the policy of the United States to establish a statutory park named the National Garden of American Heroes (National Garden).

(b) Within 60 days of the date of this order, the Task Force shall submit a report to the President through the Assistant to the President for Domestic Policy that proposes options for the creation of the National Garden, including potential locations for the site. In identifying options, the Task Force shall:

(i) strive to open the National Garden expeditiously;

(ii) evaluate the feasibility of creating the National Garden through a variety of potential avenues, including existing agency authorities and appropriations; and

(iii) consider the availability of authority to encourage and accept the donation or loan of statues by States, localities, civic organizations, businesses, religious organizations, and individuals, for display at the National Garden.

(c) In addition to the requirements of subsection 3(b) of this order, the proposed options for the National Garden should adhere to the criteria described in subsections (c)(i) through (c)(vi) of this section.

(i) The National Garden should be composed of statues, including statues of John Adams, Susan B. Anthony, Clara Barton, Daniel Boone, Joshua Lawrence Chamberlain, Henry Clay, Davy Crockett, Frederick Douglass, Amelia Earhart, Benjamin Franklin, Billy Graham, Alexander Hamilton, Thomas Jefferson, Martin Luther King, Jr., Abraham Lincoln, Douglas MacArthur, Dolley Madison, James Madison, Christa McAuliffe, Audie Murphy, George S. Patton, Jr., Ronald Reagan, Jackie Robinson, Betsy Ross, Antonin Scalia, Harriet Beecher Stowe, Harriet Tubman, Booker T. Washington, George Washington, and Orville and Wilbur Wright.

(ii) The National Garden should be opened for public access prior to the 250th anniversary of the proclamation of the Declaration of Independence on July 4, 2026.

(iii) Statues should depict historically significant Americans, as that term is defined in section 7 of this order, who have contributed positively to America throughout our history. Examples include: the Founding Fathers, those who fought for the abolition of slavery or participated in the underground railroad, heroes of the United States Armed Forces, recipients of the Congressional Medal of Honor or Presidential Medal of Freedom, scientists and inventors, entrepreneurs, civil rights leaders, missionaries and religious leaders, pioneers and explorers, police officers and firefighters killed or injured in the line of duty, labor leaders, advocates for the poor and disadvantaged, opponents of national socialism or international socialism, former Presidents of the United States and other elected officials, judges and justices,

astronauts, authors, intellectuals, artists, and teachers. None will have lived perfect lives, but all will be worth honoring, remembering, and studying.

(iv) All statues in the National Garden should be lifelike or realistic representations of the persons they depict, not abstract or modernist representations.

(v) The National Garden should be located on a site of natural beauty that enables visitors to enjoy nature, walk among the statues, and be inspired to learn about great figures of America's history. The site should be proximate to at least one major population center, and the site should not cause significant disruption to the local community.

(vi) As part of its civic education mission, the National Garden should also separately maintain a collection of statues for temporary display at appropriate sites around the United States that are accessible to the general public.

Sec. 4. Commissioning of New Statues and Works of Art. (a) The Task Force shall examine the appropriations authority of the agencies represented on it in light of the purpose and policy of this order. Based on its examination of relevant authorities, the Task Force shall make recommendations for the use of these agencies' appropriations.

(b) To the extent appropriate and consistent with applicable law and the other provisions of this order, Task Force agencies that are authorized to provide for the commissioning of statues or monuments shall, in expending funds, give priority to projects involving the commissioning of publicly accessible statues of persons meeting the criteria described in section 3(b)(iii) of this order, with particular preference for statues of the Founding Fathers, former Presidents of the United States, leading abolitionists, and individuals involved in the discovery of America.

(c) To the extent appropriate and consistent with applicable law, these agencies shall prioritize projects that will result in the installation of a statue as described in subsection (b) of this section in a community where a statue depicting a historically significant American was removed or destroyed in conjunction with the events described in section 1 of this order.

(d) After consulting with the Task Force, the Administrator of General Services shall promptly revise and thereafter operate the General Service Administration's (GSA's) Art in Architecture (AIA) Policies and Procedures, GSA Acquisition Letter V-10-01, and Part 102-77 of title 41, Code of Federal Regulations, to prioritize the commission of works of art that portray historically significant Americans or events of American historical significance or illustrate the ideals upon which our Nation was founded. Priority should be given to public-facing monuments to former Presidents of the United States and to individuals and events relating to the discovery

of America, the founding of the United States, and the abolition of slavery. Such works of art should be designed to be appreciated by the general public and by those who use and interact with Federal buildings. Priority should be given to this policy above other policies contained in part 102-77 of title 41, Code of Federal Regulations, and revisions made pursuant to this subsection shall be made to supersede any regulatory provisions of AIA that may conflict with or otherwise impede advancing the purposes of this subsection.

(e) When a statue or work of art commissioned pursuant to this section is meant to depict a historically significant American, the statue or work of art shall be a lifelike or realistic representation of that person, not an abstract or modernist representation.

Sec. 5. Educational Programming. The Chairperson of the NEH shall prioritize the allocation of funding to programs and projects that educate Americans about the founding documents and founding ideals of the United States, as appropriate and to the extent consistent with applicable law, including section 956 of title 20, United States Code. The founding documents include the Declaration of Independence, the Constitution, and the Federalist Papers. The founding ideals include equality under the law, respect for inalienable individual rights, and representative self-government. Within 90 days of the conclusion of each Fiscal Year from 2021 through 2026, the Chairperson shall submit a report to the President through the Assistant to the President for Domestic Policy that identifies funding allocated to programs and projects pursuant to this section.

Sec. 6. Protection of National Garden and Statues Commissioned Pursuant to this Order. The Attorney General shall apply section 3 of Executive Order 13933 of June 26, 2020 (Protecting American Monuments, Memorials, and Statues and Combating Recent Criminal Violence), with respect to violations of Federal law regarding the National Garden and all statues commissioned pursuant to this order.

Sec. 7. Definition. The term “historically significant American” means an individual who was, or became, an American citizen and was a public figure who made substantive contributions to America’s public life or otherwise had a substantive effect on America’s history. The phrase also includes public figures such as Christopher Columbus, Junipero Serra, and the Marquis de La Fayette, who lived prior to or during the American Revolution and were not American citizens, but who made substantive historical contributions to the discovery, development, or independence of the future United States.

Sec. 8. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof;
or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Article VI, Section 2 of our Constitution provides:

“On all questions, including the election of officers, each county represented shall be entitled to one vote, which shall be the majority expression of the delegates of that county. The vote of any county in good standing may be cast by any one of its county commissioners who is present at the time the vote is taken; provided, if no commissioner be present, such vote may be cast by another county official, elected or appointed, who holds elective office or an appointed position in the county whose vote is being cast and who is formally designated by the board of county commissioners. These provisions shall likewise govern district meetings of the Association. A county in good standing is defined as one which has paid the current year's dues.”
