

**Staff Report 8/8/2013**

**Owner:** Christine, Carl, and Joe Samford

**Applicant:** Nexsen Pruet, PLLC – Thomas H. Johnson Jr., Agent for property owner

**Parcel ID:** 0331 03004

**Location:** Near 10866 NC 39 North

**Current Zoning:** (A-R) Agricultural Residential

**Public Hearing:** 08/8/2013

**Prepared by:** Jordan McMillen

Note: As a part of any approval, the board is required to make a determination of the electromagnetic field (EMF) effects of the tower on the health of the public. Based upon the evidence presented, an item has been included within the DRAFT findings of fact that is satisfactory to address this requirement should the board agree.

**Description of Conditional Use Permit Request:**

The applicant is requesting a conditional use permit to allow construction of a 300 ft. monopole wireless telecommunication facility (cell tower).

**Exhibits as follows:**

- Exhibit 1.** Application
- Exhibit 2.** FCC Compliance Assessment
- Exhibit 3.** Collocation Certification and Impact Statement
- Exhibit 4.** Tower Owner Insurance Coverage
- Exhibit 5.** Adjoining Owners, Zoning and 2010 Aerial Map
- Exhibit 6.** Site Plan
- Exhibit 7.** Conditional Use Permit check sheet

**DRAFT Findings of Fact**

1. The request is for a conditional use permit to allow a 300 foot monopole wireless telecommunication facility (cell tower) on a parcel zoned (A-R) Agricultural Residential.
2. Christine, Carl, and Joe Samford are the the property owners. The cell tower site is to be leased from the property owners.
3. The property is located along NC 39 North; more specifically identified as tax parcel 0331 03004.
4. The parcel consists of approx. 156 total acres of which a 100 x 100' lease area would be established for the cell tower and associated equipment.
5. The lot is currently zoned (A-R) Agricultural Residential, is predominantly grassland with pockets of woodland and includes a few residential structures and agricultural structures.
6. The output levels from non-ionizing electromagnetic radiation (NIER) will be less than 1% of the maximum permissible exposure (MPE) level. Therefore the electromagnetic field (EMF) effects of the tower should have no harmful effects on the health of the public.
7. The application requesting a conditional use permit was filed on 06/29/2013.
8. The adjoining property owners were notified on July 24, 2013.
9. The property was posted on July 25, 2013.
10. The legal notice was run on July 25, 2013 and August 1, 2013.

**Staff Comments**

The applicant is proposing to construct a 300 ft. monopole cell tower to initially be utilized by AT&T with space for collocation by other carriers. Once the tower is complete, it will be owned by American Tower Corporation. The applicant has included a statement indicating the tower owner's intention to allow shared use of the tower in the future. The tower will be located on a leased portion of land and will be surrounded by an 8 ft. fence with a 25 ft. wide landscaped buffer area. The buffer area will consist of 15 red maple trees, 73 American boxwoods for shrubbing and mulch for ground cover. The proposed landscaping and buffering meets the buffer requirements for cell towers as outlined in section 6.10 O.5 of the zoning ordinance.

As is required by the zoning ordinance, the applicant has provided a study determining that the power output levels do not exceed federally approved levels. Specifically, the evidence shows that the output level from non-ionizing electromagnetic radiation (NIER) will be less than 1% of the maximum permissible exposure (MPE) level. Additionally, the applicant has supplied a justification for needing a cellular tower in this location that shows the necessity in terms of filling the gap in cellular coverage within this area. Staff research confirms that this cell tower will not be located within 1 mile of any other existing towers within the County (The closest tower is approximately 1.5 miles straight-line distance). Staff believes that this will significantly improve cell tower communication signals within the surrounding area.

Due to the towers location within a parcel that is residentially used, it is required that the tower be setback from any structures at a distance of 1 foot for every 1 foot in height of the tower. This requires no structures to be within 310 feet of the tower (height includes antenna on top of tower). According to the plans, no structures are within this fall zone with the closest structure located over 700 feet away.

As a condition of approval, it would be recommended that documentation be provided by a registered engineer that the tower has sufficient structural integrity to accommodate more than one user. Staff has also requested a certification from the property owners stating that no future development will be made within the established fall zone setback.

## Conditional Use Permit Application

Vance County Planning & Development Department

### Statement of Justification

1. Application is hereby made for the following use: *Please explain below:*

This application is for a proposed 300' self support wireless telecommunications facility.

2. The intent is to : *Check all that apply:*

- Construct a new structure for a conditional use;
- Repair the existing structure for the conditional use;
- Alter and/or expand the existing structure for the conditional use;
- Other

3. The following requirements have been provided: *Check all that apply:*

- Site plan;
- Property description;
- NC DOT entrance permit (if applicable);

4. Additional information:

**In order to issue a Conditional Use Permit, the Board shall consider each of the following conditions, and based on the evidence presented at the hearing(s) make findings in regards to each and must find that the issuance of the Conditional Use Permit is in the best interest of the county.**

A. The use requested is among those listed as an eligible conditional use in the district in which the subject property is located.

Yes  No

B. The use or development is located, designed and proposed to be operated so as to maintain or promote the public health or safety;

Yes  No

# Vance COUNTY

NORTH CAROLINA

## Conditional Use Permit Application

Vance County Planning & Development Department

C. The use or development complies with all required regulations of the Zoning Ordinance and all applicable specific conditions and specifications;

Yes  No

---

---

D. The use or development is located, designed and proposed to be operated so as to maintain or enhance the value of adjoining or abutting property, or that use or development is a public necessity;

Yes  No

---

---

E. The use or development will be in harmony with the area in which it is located and will be in general conformity with the plan of development of the County.

Yes  No

---

---

**DATE:** June 27, 2013  
**SUBJECT:** FCC Compliance Assessment for Proposed AT&T Mobility Site 368-441

AT&T Mobility has been requested to evaluate the radio frequency emissions of our proposed site 368-441. In addition, AT&T Mobility has been requested to address other RF related topics such as transmitter operation and maximum permissible output power levels. The remainder of this report will address all RF related items requested by Vance County Zoning/Planning for proposed site 368-441.

#### **Transmitter Operation**

AT&T Mobility owns the B/C LTE Bands and B PCS Band PCS licenses in Vance County. The transmitters being used on the proposed site are authorized to operate in the 704-716, 734-746 and 1950-1965 Megahertz (MHz) frequency range. The Ericsson Node B base station transmitters AT&T Mobility utilizes have a maximum output level of 60 watts. AT&T Mobility utilizes the GSM, LTE and UMTS digital technology. As a result our transmitters utilize Gaussian Minimum Shift Keying (GMSK), 16-State Quadrature Amplitude (16QAM), 64-State Quadrature Amplitude (64 QAM) and Quadrature Phase Shift Keying (QPSK) modulation. Precision filters limit unwanted and spurious emissions to levels below the FCC specification. The signals being transmitted will not interfere with the operation of commercial radio, cellular radio, television, telephone or other FCC approved communication equipment. For our proposed site 368-441, GSM technology will not be deployed.

#### **Maximum Permissible Output Power**

The maximum permissible output power for 1900 band per sector is 1640 Watts of effective radiated power (ERP) from the antennas in Vance County. The proposed site 368-441 is only transmitting 506 total watts ERP.

The maximum permissible output power for 700 band per sector is 1000 Watts of effective radiated power (ERP) from the antennas in Vance County. The proposed site 368-441 is only transmitting 197 total watts ERP.

#### **RF Exposure (NIER levels)**

The FCC states in 47 CFR 1.1310 that the maximum permissible exposure (MPE) level from non-ionizing electromagnetic radiation (NIER) to the general population at cellular and PCS frequencies is 1.0 milliwatt per centimeter squared (mW/cm<sup>2</sup>). MPE is a measure of the RF power density at or below which there are no potential harmful effects from the exposure.

Power density calculations are based on guidelines given by the ANSI Standard C95.1-1992 and are based on a worst case scenario. For analysis purposes, worst case conditions were chosen for all output power levels based on the deployment of LTE and UMTS technologies. The site is being deployed initially with 6 transmitters. For analysis purposes, 15 transmitters were used. A summary of the results of the power density calculations for site 368-441 is listed below in **Table 1** and **Table 2**.

Distance From Tower (Feet)	Power Density (mw/cm2)	% FCC Standard
1	0.0000221	0.008831
25	0.0000219	0.008768
50	0.0000159	0.006362
75	0.0000114	0.004555
100	0.0000261	0.010427

**Table 1: Power Density Summary for Site 368-441 for 1900 Band**

Distance From Tower (Feet)	Power Density (mw/cm2)	% FCC Standard
1	0.0000033	0.0026905
25	0.0000054	0.0044329
50	0.0000086	0.0070368
75	0.0000115	0.0093816
100	0.0000129	0.0105193

**Table 2: Power Density Summary for Site 368-441 for 700 Band**

As shown in **Table 1**, the maximum power density will not exceed 0.0000261 mW/cm<sup>2</sup> at ground level in 1900 Band and as shown in **Table 2**, the maximum power density will not exceed 0.0000129 mW/cm<sup>2</sup> at ground level in 700 Band. Moreover, the average energy expected near ground level is less than 1% of the MPE level. This level does not exceed the MPE limit set by the Federal Communications Commission or the American National Standards Institute.

Based upon the ANSI/FCC standard and the predicted levels of electromagnetic energy emitted by site 368-441, this installation will be of no safety concern to the general public.

If there are any further questions regarding the information provided I can be reached at (919) 852-2717.

Sincerely

David J. LaCava

**DATE:** June 27, 2013  
**SUBJECT:** RF Justification for Cingular Wireless Site 368-441

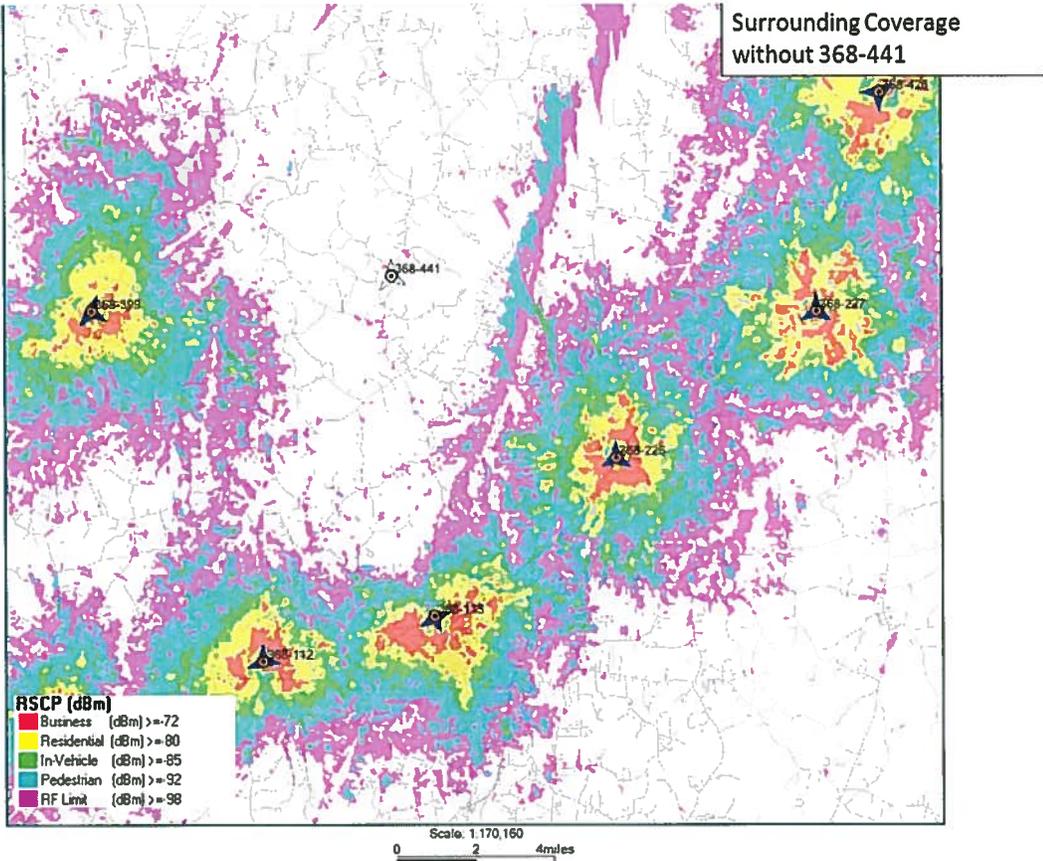

AT&T Mobility has been requested to provide justification for our proposed site 368-441. AT&T Mobility is currently in the process of enhancing/expanding our existing coverage in Vance County. The proposed site will provide coverage to Morgan Road, NC Highway 39 and surrounding area. Existing structures have been utilized whenever possible. **Figure 1** shows the general area within Vance County that the new site will be located. In **Figure 1** blue text and corresponding icons indicate the location of all existing sites and the white text box indicates the location of the proposed site.

**Figure 1: Map of Cingular Wireless' Existing and Proposed Sites**

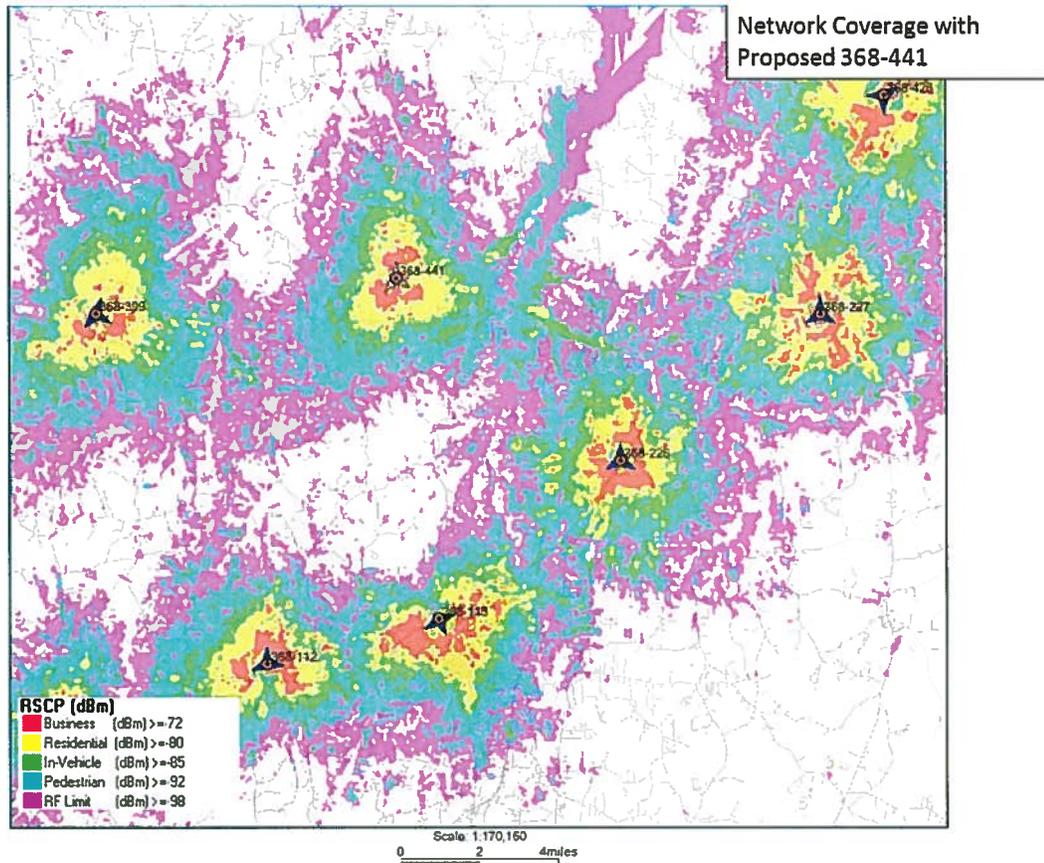

Currently AT&T Mobility does not have adequate coverage in the concerning area. Refer to **Figure 2**, which shows coverage without the proposed site 368-441.

**Figure 2: Map of Cingular Wireless' Coverage Without 368-441**

With the addition of proposed site 368-441 AT&T Mobility will provide adequate coverage to Morgan Road, NC Highway 39 and surrounding area. Refer to **Figure 3** which shows coverage with proposed site 368-441.

**Figure 3: Map of Cingular Wireless' Coverage With 368-441**

If there are any further questions regarding I can be reached at (919) 852-2717.

*Application of American Towers LLC to construct a new Wireless  
Telecommunications Tower for the following site:*

Site Name: Taylor Gate, Site No. 368-441  
Site Address: 10866 NC 39 Hwy North, Henderson, NC 27537

### AMERICAN TOWERS LLC

American Towers LLC ("AT") is one of the leading independent owner and operator of shared wireless infrastructure. The core business of American Towers LLC involves the engineering, deployment, marketing, ownership, operation and leasing of shared wireless communications sites. The sharing of infrastructure among multiple services lies at the heart of American Tower's business philosophy. Our portfolio of wireless communication sites, including existing towers and rooftops, enables our customers to serve their markets more efficiently and with sensitivity to local planning and zoning jurisdictions. American Towers LLC designs all of our facilities for multiple collocation opportunities for our customers. We endeavor to assist communities in reducing the number of towers in a given jurisdiction by supplying our customers with locations that are ready for them "Just in Time" for their coverage design and wireless performance needs. As one of the largest tower companies in the world, American Towers LLC has master lease agreements, negotiated at arms-length, with all major wireless carriers licensed to operate in North Carolina. In negotiating the rental rates of these master lease agreements, American Towers LLC considers the competitive environment of its business and the presence of other major tower companies such as Crown Castle and SBA. This ensures that American Towers LLC charges only reasonable rates to service providers.

### Collocation Certification

American Towers LLC agrees to comply with the Zoning Ordinance of the Vance County, North Carolina and is willing to permit other user(s) to attach communication equipment which do not interfere with the primary purpose of the tower, provided that such other users agree to negotiate a reasonable compensation to the owner from such liability as may result from such attachment.

Boston, Massachusetts 02116-5749  
United States

**ADDITIONAL INFORMATION****Named Insureds:**

American Tower Corporation  
American Towers, LLC  
American Towers, Inc.  
ATC Towers, Inc.  
Semann Engineering Solutions, LLC  
SpectraSite Communications, LLC  
ATC Payroll LLC

American Tower Corporation has Additional Insured Endorsements that apply to the Commercial General Liability and Automobile Liability policies issued by Greenwich Insurance Company. Because of the nature of these endorsements, it is not necessary to specifically schedule parties with a contractual and insurable interest, as Additional Insured status is extended to those parties by the nature of the written business relationship as follows:

**BLANKET ADDITIONAL INSURED INCLUDES:**

Any person or organization with an insurable interest is additional insured, as required by written contract with the named insured, but only in accordance with the policy terms.

**ADDITIONAL INSURED – Scheduled Designated Person or Organization**

Schedule: ALL PREMISES WHERE REQUIRED BY CONTRACT

The insurance provided will not exceed the lesser of:

1. The coverage and/or limits of this policy, or
2. The coverage and/or limits required by said contract or agreement.

The insurance provided does not apply to:

1. Any "occurrence" which takes place after the insured ceases to be a tenant in that premises.
2. Structural alterations, new construction or demolition operations performed by or on behalf of the person or organization shown in the Schedule.
3. Professional Services.

**ADDITIONAL INSURED LESSOR – Additional Insured and Loss payee – Automobile Liability**

Schedule: Where required by written contract

Description: Any auto leased or rented to you.

**A. Coverage**

1. Any "leased auto" designated or described in the schedule will be considered a covered "auto" you own and not a covered "auto" you hire or borrow. For a covered "auto" that is a "leased auto," Who Is An Insured is changed to include as an "insured" the lessor named in the Schedule.
2. The coverages provided under this endorsement apply to any "leased auto" described in the Schedule until the expiration date shown in the Schedule, or when the lessor or his or her agent takes possession of the "leased auto," whichever occurs first.

**B. Loss Payable Clause:**

1. We will pay, as interest may appear, you and the lessor named in this endorsement for "loss" to a "leased auto."
2. The insurance covers the interest of the lessor unless the "loss" results from fraudulent acts or omissions on your part.
3. If we make any payment to the lessor, we will obtain his or her rights against any other party.

This Memorandum of Insurance serves solely to list insurance policies, limits and dates of coverage. Any modifications hereto are not authorized.

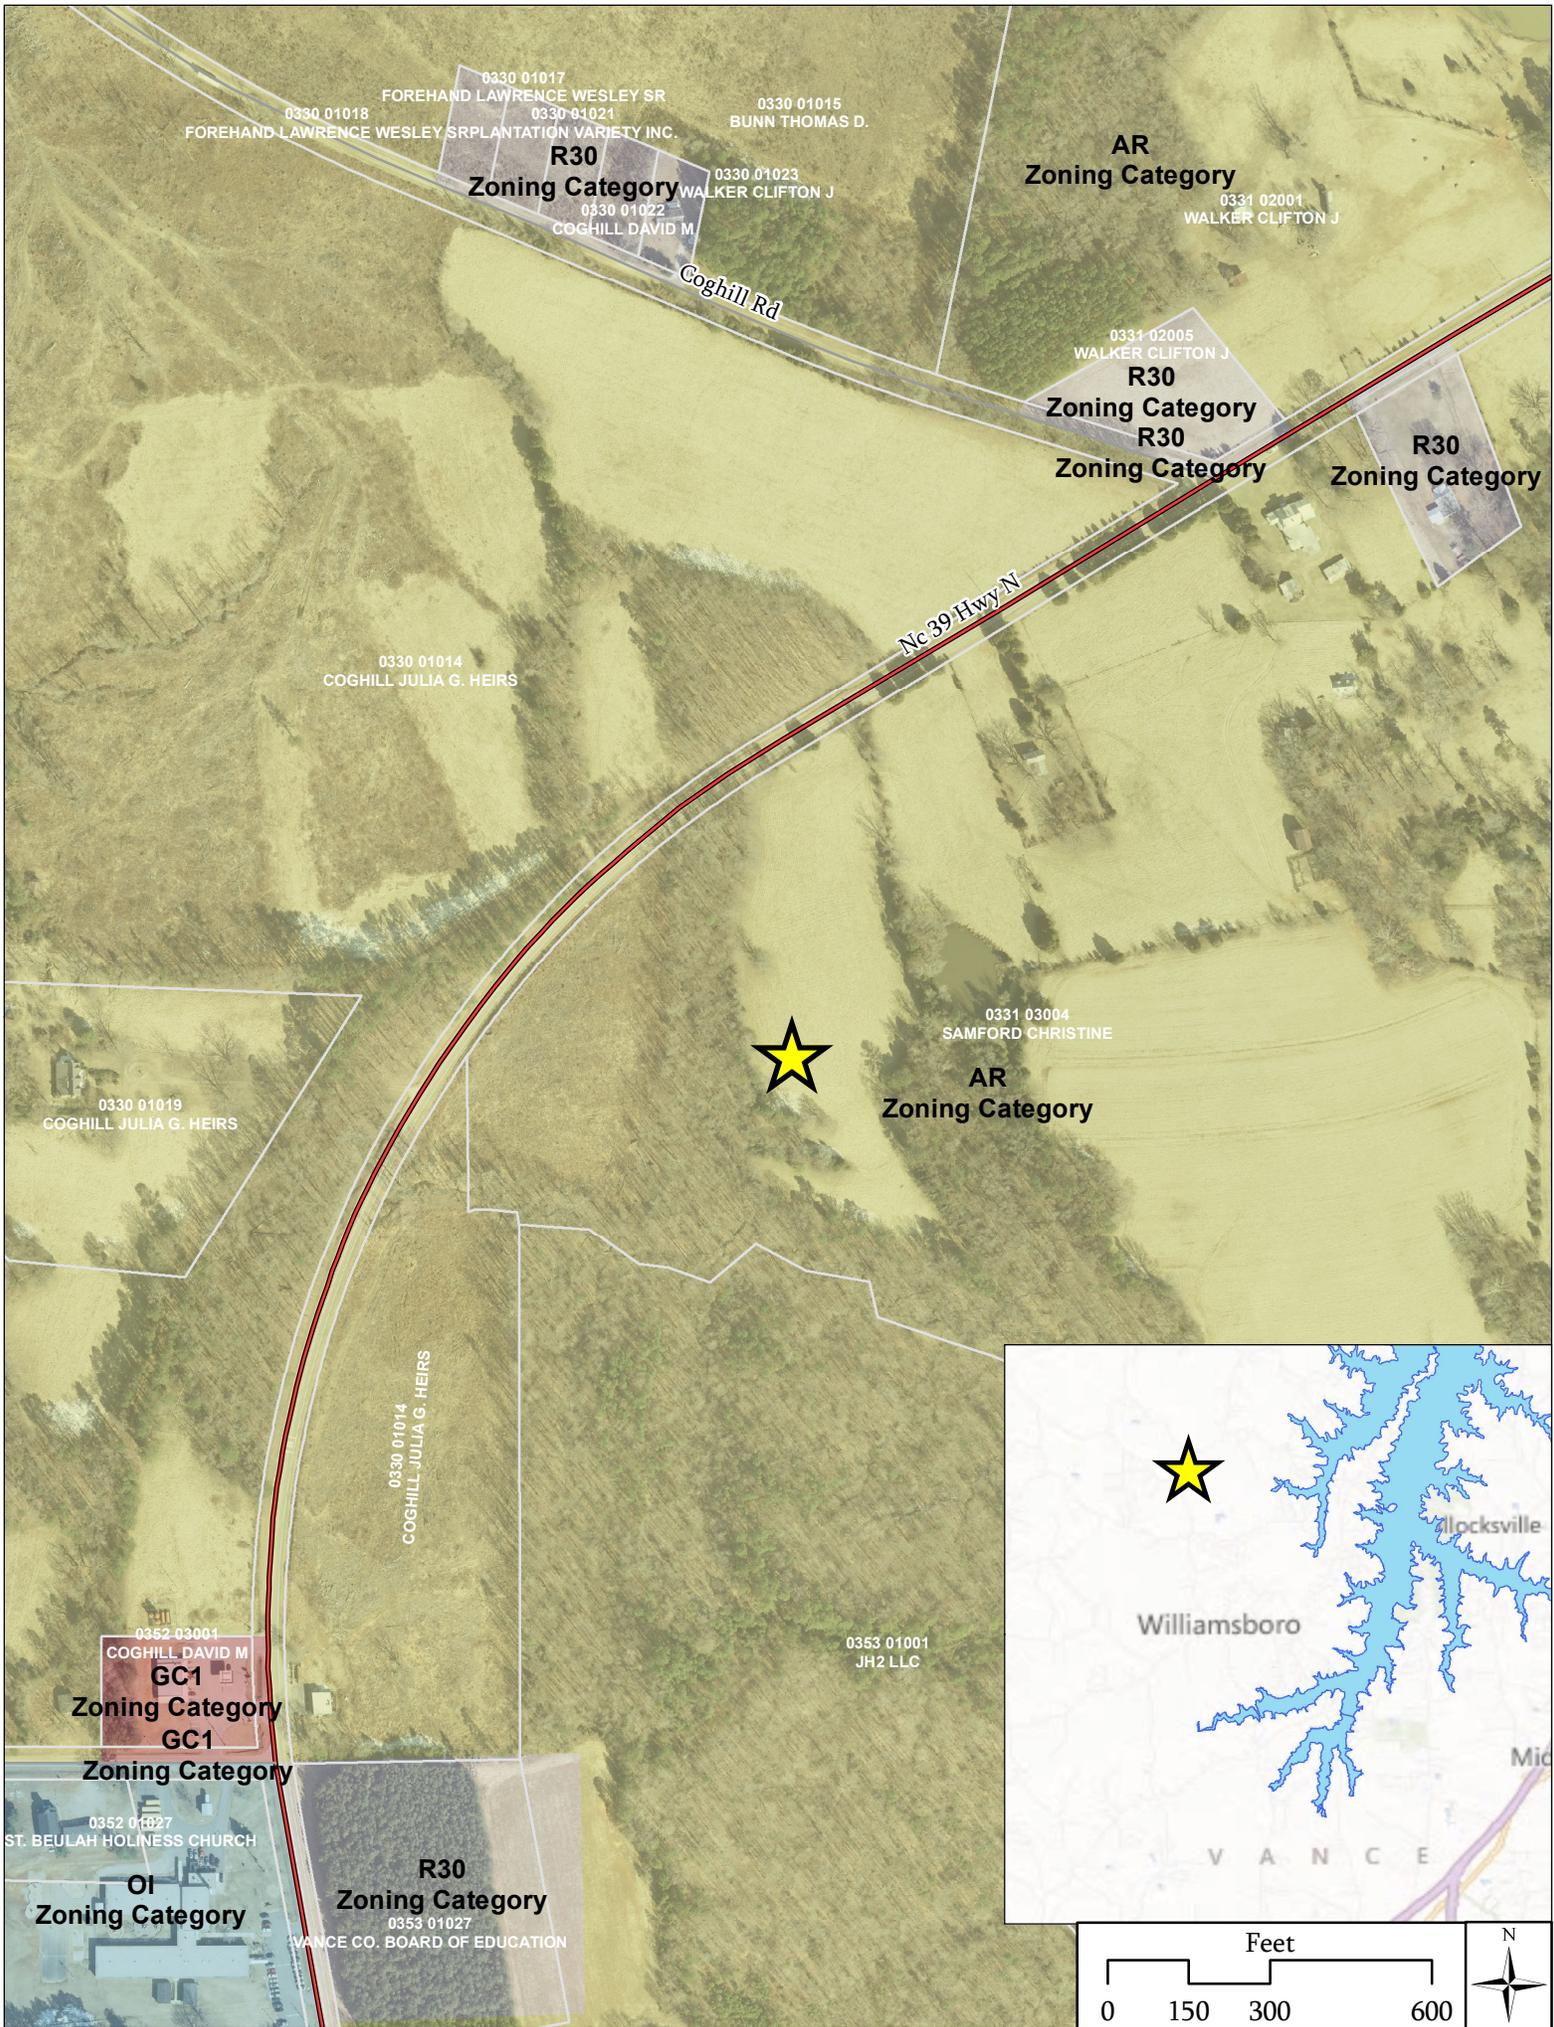

**C. Cancellation**

1. If we cancel the policy, we will mail notice to the lessor in accordance with the cancellation Common Policy Condition
2. If you cancel the policy, we will mail notice to the lessor.
3. Cancellation ends this agreement.

D. The lessor is not liable for payment of your premium.

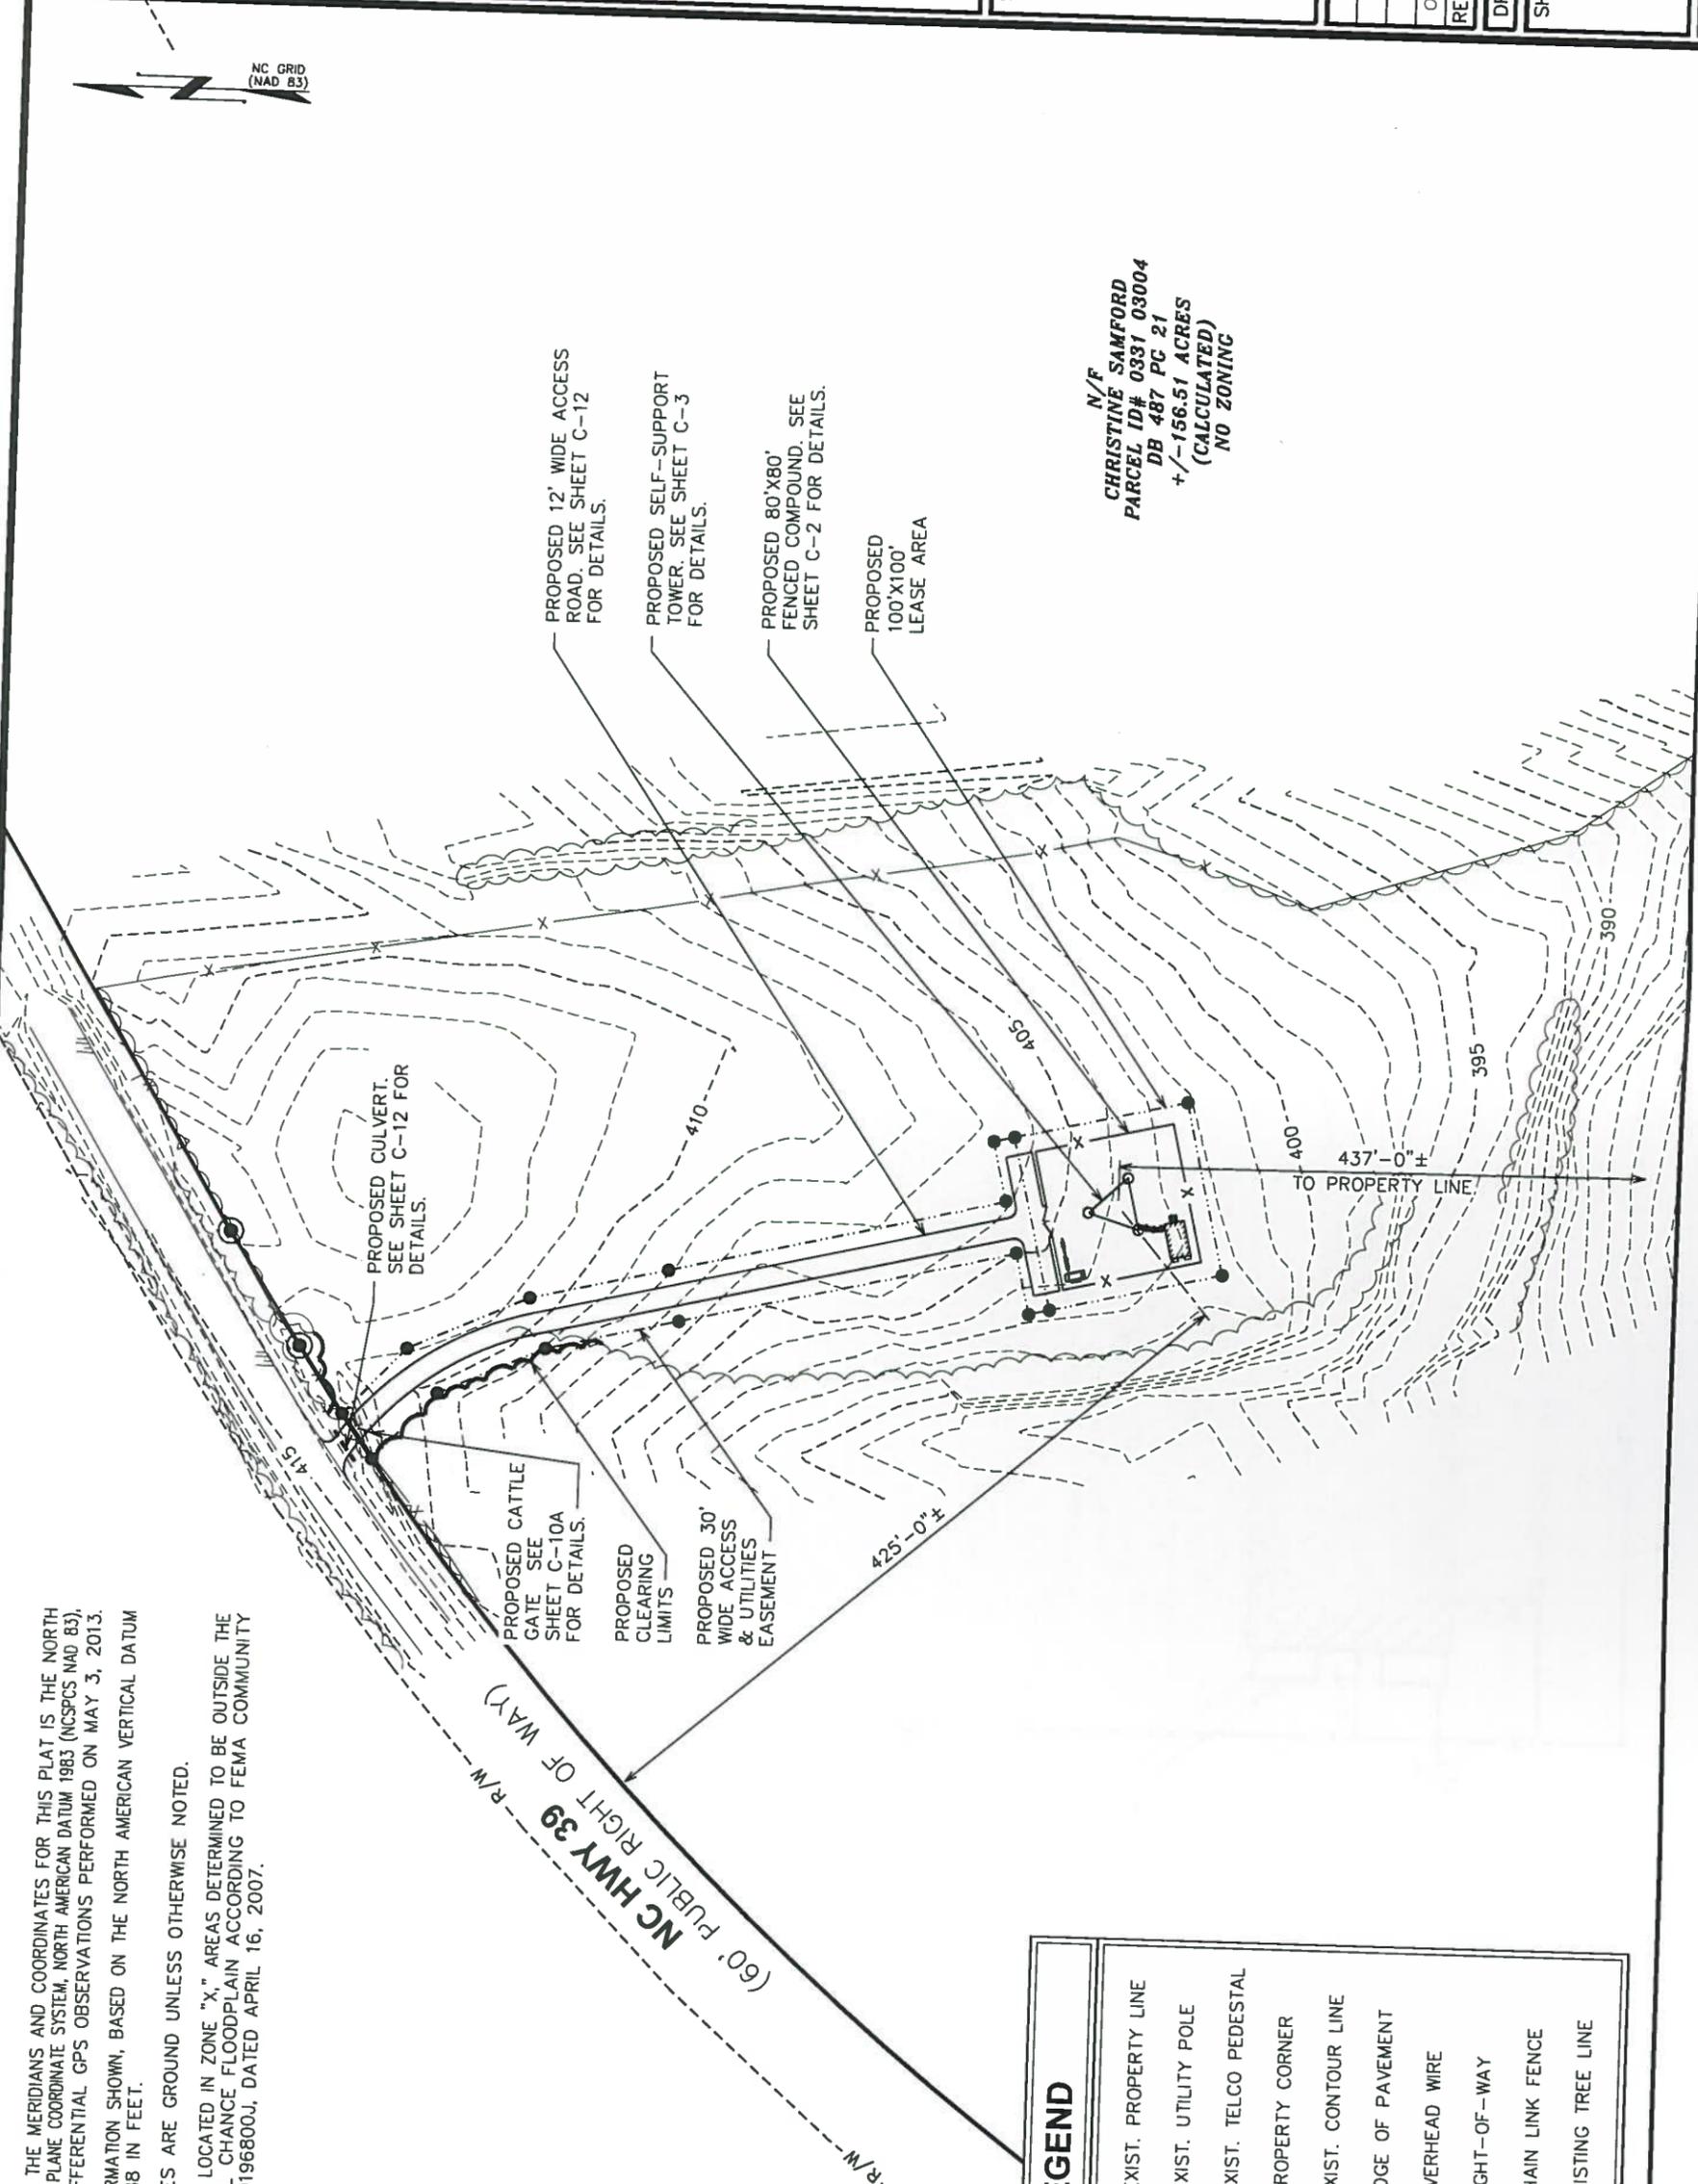

E. Additional Definition - "Leased auto" means an "auto" leased or rented to you, including any substitute, replacement or extra "auto" needed to meet seasonal or other needs, under a leasing or rental agreement that requires you to provide direct primary insurance for the lessor.

This Memorandum of Insurance serves solely to list insurance policies, limits and dates of coverage. Any modifications hereto are not authorized.
