

Water Project
Construction Update
As of December 7, 2018

Construction of Phase 3 has begun! The County has given the contractor the notice to proceed. Construction began on November 26, 2018, and is anticipated to be completed within ten months. Construction will be beginning along Rock Mill Road (near Alvin Lane and Faulkner Town Road intersection), working outward on NC 39 Hwy South, and ending on Foster Road/Foster Road Extension. The contractor anticipates laying 5 miles of pipe. Please be on the lookout for door hangers which will be placed at residences next in line for construction. As construction will move rather swiftly, this will be the last opportunity for you to sign up at the reduced rate of \$125. As the line is constructed past each property the price for a tap at that location will increase significantly – Contact Vance County Planning and Development (252-738-2080) or Envirolink, Inc. (1-888-754-9878) to sign up prior to the price increase.

Please check back for schedule updates as construction progresses. **See the following page for a map showing all roads which are currently planned for construction within Phase 3.**

Vance County Water District
Phase 3 Waterline Construction
Work to Begin late 2018 and through 2019
