Aging profile

Ages	2014		2034		% Change (2014-2034)
	#	%	#	%	
Total	45,077		44,778		-0.7%
0-17	10,878	24%	9,852	22%	-9.4%
18-44	14,954	33%	15,771	35%	5.5%
45-59	9,071	20%	7,225	16%	-20.4%
60+	10,174	23%	11,930	27%	17.3%
65+	7,313	16%	9,405	21%	28.6%
85+	921	2%	1,318	3%	43.1%

Population Change
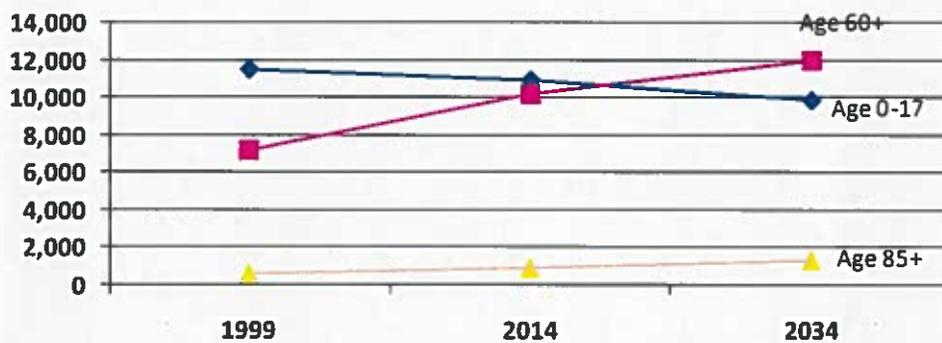

Projected change of population 65+, by age group (2014-2034)

Ages	65-74	75-84	85+
County	9%	62%	43%
State	48%	103%	92%

*As % of age group

Of the population 65+, the age group 75-84 will grow more rapidly in the next 2 decades. Beyond 2030, the growth will shift into the ages 85+, as the baby boomers move into this age group. However, 44 counties in the state are already projected to have more growth in the 85+ population (2014-2034).

Glossary

Disability: A long-lasting physical, mental, or emotional condition that makes it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering

Group Quarters: Includes population not living in households. Two general categories of people are recognized. 1). Institutionalized population which includes people under formally authorized, supervised care or custody in institutions (such as correctional facilities, nursing homes and juvenile institutions) and 2) the noninstitutionalized population which includes all people who live in group quarters other than institutions (such as college dorms, military quarters and group homes)

Hispanic or Latino: Refers to a person of Cuban, Mexican, Puerto Rican, South or Central American or other Spanish culture or origin regardless of race

Household: A household includes all the people who occupy a housing unit as their usual place of residence

Labor force: The labor force includes all people classified in the civilian labor force, plus members of the U.S. Armed Forces. The Civilian Labor Force consists of people classified as employed or unemployed

Median household income: This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. The median divides the income distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median

Poverty: The Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is in poverty. If the total income for a family or unrelated individual falls below the relevant poverty threshold, then the family (and every individual in it) or unrelated individual is considered in poverty. The poverty threshold (2014) for a person 65+ is $12,316 and for a couple 65+ is $15,853. These are not the same as Federal Poverty guidelines
